School Supply List

Many families like to prepare for the fall by purchasing school supplies prior to start of the year. It is for this reason that we do our best to provide you with a list before we leave for the summer. Before reviewing the attached list, please carefully read below.

- Everyone has different preferences and budgets when purchasing school supplies. We have listed specific brands that offer the best quality and durability over the year. If you are able, we ask that you please purchase the brands listed. Thank you.
- In order to be considerate of cost, we only include items to be used by every teacher in each grade. Once we have organized classes in September, a small list of additional items will be sent home. This will prove more cost effective. **Your child's teacher will communicate this in mid September.**
- Please be prepared that some highly-used and consumable items may be required to be replenished throughout the year.

Thank you for your support.
