Revised May 16, 2023

Appendix: Legislation and School Fees

Instruction is provided free of charge to all students registered in a school's education program sufficient to meet the general requirements of graduation, and it shall provide free of charge any resource material necessary to participate in that program. The School Act permits the charging of fees for certain items. In Surrey secondary schools, the following structure applies through Board Policy 9802 related to fees and any costs for students or families. Any school fees will be communicated to parents and students of each school's community on an annual basis.

Basic School Supplies

Students will need to provide their own basic supplies and equipment for their own personal use at school. This includes supplies such as paper, writing tools, calculators, notebooks, gym strip, sewing kits, and some other items needed for various electives.

Inability to pay fees

The district's hardship policy is an important part of our fees. No student will be denied the ability to participate in any part of the school's educational programs as a result of an inability to pay. Every school must develop a process whereby fees may be waived because of financial hardship. The process must incorporate the principles of fairness, confidentiality, and sensitivity, while maintaining family respect and dignity. All letters to parents requesting payment of a fee will include a statement that explains the school district's fee waiver policy and the protection of privacy.

Student Activity Fee

This fee is charged to all students and is in the range of \$20 - 25 per student. Each school will communicate to parents and students the breakdown of where the funds from activity fees are directed.

At Fleetwood Park, the student activity fee of \$20 is allocated to:

- \$5.00 Student Items provided by office: school app, locks/locker maintenance
- \$8.00 Student Council and Leadership Events that can benefit all students: Grade 8-12 pancake breakfasts; School-wide BBQs; spirit activities; school dances; student-directed events
- \$7.00 Student Athletics that can benefit all students (intramurals, games and related equipment)

Athletics

Participation in athletics and organized sports is an important part of a school's culture. Each secondary school is unique in the sports offered and the levels at which they participate. Students can expect a cost for participation which is dependent on the level of the sport, the number of games or tournaments played, the travel involved as well as other factors including fees for referees which are paid by the school. A significant portion of the costs associated with athletics goes to the provincial bodies that organize these events. Every attempt is made to keep costs to a minimum and it is normal practice to have parents pay in a lump sum at the beginning of any one-sport season so parents understand the true costs involved for full participation. No school shall generate an ongoing surplus as the result of collection of fees for athletic programs and organized extracurricular sports. **At Fleetwood Park, athletic fees, in minor and major sports, pay for the athletic banquet and awards, a Fleetwood Park Athletics t-shirt, and association fees.**

Certification

Some programs include a component that offers an external certificate recognizing unique qualifications. Examples are St. John's First Aid and Food Safe. These certificates help prepare students for employment and schools charge a fee to recover the cost of certification. The cost to the student will match the cost to the school for the certificate.

Examinations

Some programs offer external examinations where students can obtain credit for post-secondary institutions as a result of successfully completing the exam. International Baccalaureate and Advanced Placement are examples. Where students take these exams, a fee is charged to recover the cost of the examination and the fee shall be less than or equal to the actual cost of the exam.

Field trips

Students may be charged fees for expenses such as transportation, accommodation, meals, entrance fees and equipment rentals for optional field trips, or other extracurricular outings or events. Students will not be charged fees for any field studies/field trips where attendance is mandatory as part of a course or program.

Graduation Commencement Ceremonies

The graduation ceremony is an important tradition that represents the end of a student's school experience. Costs do apply as these extracurricular events are hosted in a variety of venues across the district and different traditions and formats require different levels of student costs. No student will be denied the ability to participate in a graduation ceremony due to an inability to pay the cost. Every effort is made to keep costs to a minimum and no school will compile an ongoing surplus as a result of monies collected to host a graduation ceremony.

International Baccalaureate (IB)

The IB program is based on standards and curriculum developed by the International Baccalaureate Organization. This program meets all requirements of our province and also offers additional opportunities and enhancements. A Board may charge a fee for students enrolled in an IB program for direct costs that are above and beyond the costs required for a standard educational program. These fees must be published on an annual basis.

Materials consumed in a course

In courses that consume materials (e.g. art, cooking, woodworking, metalwork, science) schools can only charge for materials or goods that are surplus to what would be necessary for the student to meet the expected outcomes in a course. If a student is going beyond the basic requirements of a course and creating projects for personal use (e.g. creating a table of mahogany rather than plywood), then the student may bring their own materials from home or the cost for the materials for these enhanced projects may be recovered through a fee.

Musical Instruments

A board may charge a fee for the rental of a musical instrument for the student's personal use or the student may provide their own instrument when he/she is part of a fine arts class or a course with a musical component. **At Fleetwood Park, a repair and maintenance fee will be charged for instruments loaned out to students. Details will be provided to parents based on instrument.**

Specialty Academies

Some schools have "specialty academies" which is an educational program that emphasizes a particular sport, activity or subject area. All academies require consultation with the Parent Advisory Council of a school and approval of the Board of Education. As part of the Board approval, a specific fee may be charged to support the academy and that fee must be directly related to the activities that are above and beyond a standard educational program. **Fleetwood Park has AP Calculus.**

Students in Apprenticeship Programs

Where students participate in a trades program that results in certification or is part of an Industry Training Authority apprenticeship, fees may be charged for the rental of tools, equipment and materials necessary for participation in the program or the Board may require the student to purchase his or her own tools, equipment and materials required for the program.

Textbook or Calculator Deposits

In accordance with the School Act, the Board may require deposits for educational resource materials, such as textbooks, novels and other resource materials. The Board will refund all of the deposit to the student upon return of the educational resource materials in good condition. Students will be advised of terms of the deposit at the time the deposit is required. Waiver procedures must be in place for all deposits.

Uniforms

Students sometimes need special clothing (uniforms for band or for cafeteria) to participate in an educational program. These clothes are not a requirement to participate in a program but are logical savings for parents where clothes could be soiled or damaged in shops or the cafeteria. If the clothes (e.g. band or choir uniforms) are owned by the school, a fully refundable deposit may be required to ensure the return in good condition.

Workbooks

Workbooks are optional enhancements to educational programs. These workbooks are designed for a student's personal use as they will write in the books during the course of instruction. Where a workbook is regularly used as part of a course and a student does not wish to purchase their own workbook, one will be provided and students will not be permitted to write in the workbook.

Where there is an optional fee for a workbook, that fee will match as close as reasonably possible to the exact cost of the workbook to the school. No school will accumulate an ongoing surplus as a result of workbook fees.

Yearbooks

Yearbooks are common in schools and are optional. The cost for a yearbook for a school shall be directly related to the development and publishing costs of the yearbook and no school shall generate an ongoing surplus as the result of the fees charged to students who wish to buy a yearbook.

Summer Programs

Fleetwood Park will be hosting two new summer enhancement programs this year for students entering grades 8-10 in the fall. These FREE programs will run July 4 – 21 in room A220.

Two New Mental Health Animated Videos

The next two in our series of six animated, multilingual [mental health videos](#) are now available for students, Families and educators.

Healthy vs Unhealthy Stress defines the different types of stresses – explaining that some kinds of stress are actually ok, while others can have negative impacts on well-being. The video outlines the potential harms of unhealthy stress and healthy strategies to manage it.

Health & Wellness explains what physical and mental wellness is and how best to take steps – even small ones – toward achieving it.

The first two – **Navigating Life Changes & Digital Stress** – were released last month, with 2 more coming in June. Each of the videos is available in an elementary version for primary students and a secondary version for students in upper-intermediate and senior grades. All of the videos are also available in French, Punjabi, Arabic and Mandarin, all with closed captioning.

K-12 Student Reporting Policy

Information for parents and caregivers regarding the changes to K-12 Student Reporting Policy are now available in 8 languages.

The documents aim to help parents and caregivers understand the upcoming changes to the K-12 Student Reporting Policy, which will be implemented this fall for the 2023/24 school year.

The complete information package can be found on the [K-12 Student Reporting Policy Information for Families](#) web page.

The screenshot shows the top navigation bar with the British Columbia logo and a search icon. The breadcrumb trail reads: Home > Education and training > Kindergarten to Grade 12 > Administration > Legislation and policy > Public school policies >. The main heading is "K-12 Student Reporting Policy Information for Families". Below this, a section titled "On this page:" lists four links: "What is student reporting", "Why change K-12 Student Reporting Policy", "Upcoming changes to K-12 Student Reporting Policy", "How does this change in K-12 Student Reporting Policy benefit students", and "How we're supporting families". A section titled "What is student reporting" begins with the text: "Student reporting is the assessment and communication of student learning. Every student in B.C. receives communications from the school at different times in the school year that provide parents, caregivers, and students with information about student learning. The way teachers and schools communicate student learning, and the format of traditional report cards is shifting." To the right, there is a sidebar with "BC's Curriculum" and "Related Resources".

Immunization Information

Public health is encouraging everyone to stay up to date on their immunizations, including for COVID-19 and influenza (flu). Vaccines are safe and the best way to prevent influenza and severe illness from COVID-19. Schools are encouraged to share that staff, parents, caregivers, and students can get trusted information from [Immunize BC](#).

Financial Support

Financial support to make school more affordable for families that need it most.

In late August, the provincial government announced [\\$60 million in one-time funding to school districts in B.C.](#) – including \$7.385 million to Surrey Schools – to make school more affordable for students and families.

Our district has now received this funding and has allocated amounts to all of our schools. Moving forward, these funds will be used to support families struggling with the rising cost of living due to inflation.

We can use these funds at our school to ensure students can continue to participate fully in school, despite challenging financial situations.

These funds can be used to help with school supplies, food and clothing costs, and additional fees so that students in need can take part in activities, such as field trips.

Families are encouraged to reach out to principals, teachers, or their

Parking Lot Pedestrian Safety

All students are reminded to please be very cautious when you are walking through our parking lots. Please watch for cars, do not block traffic. Please use sidewalks whenever possible.

Thank you.

Traffic safety around Fleetwood Park Secondary continues to be a critical priority for our community.

With increasing enrollment, the number of vehicles navigating around and within our school grounds also increases. It is essential that all drivers are very cautious while driving near the school and are aware of the many student pedestrians who are nearby. All students and parents/guardians are requested to consider the following:

- If possible, students – please walk and/or bike to school. Fewer vehicles attempting to drop off and/or pick up students will be very helpful.
- Do not enter the school’s parking lots for drop-off/pickup. Please drop off your children 2-3 blocks away from the school and avoid the traffic congestion around the school.
- Consider drop-off/pick up earlier and/or later in the morning/ afternoons to avoid peak traffic times.
- Do not turn left onto 80th Ave out of the school lot... this creates more traffic backlog.

Thank you for your help in keeping our students safe.

Good morning Dragons!

Happy June and welcome to the final month of the 22/23 school year. As always, life is very full for students and staff as we celebrate the successes of our students and plan for next year.

Last Friday we held the Unveiling Ceremony for our Welcome Post. This was a very special day for our entire school community and a highlight of the school year. The veil was removed from the post as guests and dignitaries joined us in traditional ceremony. We reaffirmed our school's commitment to Truth and Reconciliation and celebrated the process and creation of this beautiful and powerful symbol of unity and inclusion and Indigenous culture and history. The Welcome Post involved the work and commitment of our entire community over many years. I am so proud of the way Fleetwood Park Dragons came together. I would like to thank Master Carver Mr. Brandon Gabriel for your work and inspiration and the many staff and students who directly supported this important project. Congratulations Dragons!

Monday was a Professional Development Day for the school and District; and it was also a very special day for our graduating students. We hosted this year's Graduation Dinner-Dance and Dry Grad Celebration through the late afternoon and into the early morning hours of the next day. The celebration began with an informal gathering of students and family members and staff at the school for photos, friendship and congratulations. From there, students were loaded onto busses and transported to the Newlands Golf and Country Club for a formal Dinner and Dance. Students recognized and celebrated their 13 years of public education with speeches, a slide show, a delicious dinner and fun on the Dance floor. At the end of this event, the vast majority of our graduates then climbed back on board the busses and headed to the Central City Fun Zone for the Dry Grad celebration. Students enjoyed the many games and activities and pizza as they spent time with friends and fellow graduates. Great thanks goes to the staff and students on our Grad Council for organizing the Dinner-Dance and to the hard working Parent volunteers to organized Dry Grad. This was a wonderful evening of celebration, friendship and acknowledgement. We are very proud of our 2023 Graduating class and were very pleased to be able to provide them an evening that will be remembered with joy and accomplishment.

It is Cancer Awareness Week at Fleetwood Park Secondary. Our Student Council has been busy staging events throughout the week and raising funds for this worthy cause. On Tuesday, they hosted the "Pie in the Face" contest with some very brave teacher volunteers and many happy and enthusiastic students! :-) Great fun had by all (mostly)!

We held our Staff Meeting on Tuesday with introduction of Fleetwood Park's incoming Principal for 23/24 Ms. Jodie Perry and special presentation from Director of Instruction Mr. JB Mahli. We thank Mr. Mahli for his presentation on Diversity and Equity and our staff for your thoughtful participation.

This week our Admin team has been very busy with Round 2 interviews. We will be hiring several teachers for the 23/24 school year... and we look forward to welcoming several new teachers to our community. This is always a very busy, but rewarding and important process for us and for the school community.

Our Health and Safety Committee met this morning to discuss the challenges of parking and traffic around our school, and to review possible responses to future heat waves. Both significant and challenging issues for any High school community. We would like to thank all students and staff for your resilience and understanding as we have attempted to manage and cope with these issues.

This evening is the Honouring Ceremony to recognize the graduation of our Indigenous students. It is another very special and important evening of recognition and celebration. Congratulations to our students on all you have achieved!

Friday will bring back a long-standing, fun and very worthy fundraiser to Fleetwood Park... Ms. Chong's Zumbathon will begin at 6:50pm in the large gym. This is a family friendly event... to date, we have collected over \$48,000 and this year we will be flying past the \$50,000 mark. All money collected goes to the BC Cancer Foundation's Care & Comfort Fund – helping those affected more directly with treatments, transportation, food etc. Hope to see you there! :-)

In the past month, Fleetwood Park Secondary hosted its first ever Bhangra Workshops. Grade 11 student Roop Kaur Dhillon received \$2500 from the Government of Canada to run these workshops. Roop and Mr. Uppal teamed up to host 3 workshops that ran for one hour each. Participants got a chance to learn Bhangra, have pizza & drinks, and win door prizes which were gift cards to multiple local stores. The workshops were meant to promote healthy and active living across the student body and provide students with an opportunity to step away from their screens! The workshops were a big hit with the school community. A big thank you to everyone that came out to support the initiative! Congratulations Roop on this success!

Enjoy your Friday Dragons and have a safe and relaxing weekend. Next week will bring more special events, celebration and learning. See you on Monday.

Ken
