

## **June Core Competencies Communication and Reflection #3**

**Communicating** encompasses the set of abilities that people use to impart and exchange information, experiences, and ideas; to explore the world around them; and to understand and effectively use communication forms, strategies, and technologies. Communicating provides a bridge between peoples' learning, their personal and social identity, and the world in which they interact.

As you reflect on this year's events, what was the highlight for you this year? How has participating in these events changed your perspective about yourself and others? How did you use communication skills during these events? How has it improved the way you approach learning and the school community? What do you hope to accomplish for next year regarding building a better community, not just at school but in all aspects of your life?
