ADMINISTRATIVE MEMORANDUM

MEETING DATE: 2012-06-21

**TOPIC: POLICY DEVELOPMENT & REVIEW PROJECT – COMPLETED
SEGMENTS**

The Board established review of Board policies and regulations for currency and completeness, as one of its Financial Management and System Accountability Goals and Objectives for the 1998/99 school year. This goal remains a very high priority for the Board in its role of governance.

Administration, on behalf of the Board, undertook a major review of various Board policies in the 1998/99 school year. The Board continues to conduct significant policy review on an annual basis as an essential part of governance to ensure the effective, efficient and economical delivery of educational and administrative programs and services to students. Trustees and many administrative staff members have contributed to this necessary and essential review.

The review process has included re-identifying the initiation, development and amendment processes for policies and regulations that were established many years ago. Communication with staff regarding this process has greatly increased awareness of the many steps involved in the consultative approach that the Board established.

Draft revisions and proposals for policies were reviewed by Trustees at an in-service session on 2012-05-14. Trustees continue to work with senior administration and constituency groups to review and update policies for appropriateness, currency and completeness. This process continues to provide valuable insights and wisdom for the improvement of the policy development process and the renewal of existing policies.

The attached policies were presented to Trustees for information on 2012-06-07.

POLICY: COMMUNITY USE OF FACILITIES & GROUNDS OUTSIDE OF SCHOOL HOURS

1. INTENT

Under the *School Act*, the Board is obligated to provide facilities and grounds sufficient to conduct K-12 education programs. The conduct of such programs is recognized as the primary purpose of all district facilities and properties.

The Board recognizes, however, that all taxpayers contribute to the cost of constructing and maintaining local facilities and grounds through provincial taxation. Furthermore, it recognizes that taxpayers should not be required to pay further for the construction of additional facilities or grounds. The Board agrees, therefore, to extend to the public the privilege of having access to schools and grounds currently used for K-12 programs. In the event of a violation of this privilege, the Board reserves the right to cancel the use of any school facility, grounds or equipment. Such access, however, is granted provided that community use of school buildings and grounds does not interfere with regular curricular and extra-curricular programming, and that rental charges be assessed as per regulation.

2. SCOPE

District Theatres and the District Education Centre are exempt from this policy and are covered by other policies and regulations. In addition, all use of schools during school hours is exempt from this policy and is covered by other policies and regulations.

Guidelines both in this policy and in other pertinent policies shall set out appropriate obligations to govern usage outside of school hours. Generally, the Board agrees that facilities and grounds will be rented for a variety of recreational and meeting uses in accordance with the spirit and intent of the Canadian Charter of Human Rights and Freedoms. Where there is a reasonable expectation that a confrontation between opposing groups might occur as a result of a rental, however, administration is vested with the authority to approve or deny access to school facilities and grounds.

The Board reserves the right to enter into reciprocal agreements with the City of Surrey (on behalf of Surrey Parks, Recreation & Culture) and with the City of White Rock (on behalf of White Rock Leisure Services) with respect to joint site acquisition, development and maintenance. In addition, the Board reserves the right to enter into agreements with those agencies respecting the cooperative use of facilities and grounds for conducting courses and programs. Financial arrangements for such agreements will be negotiated separately between the participating agencies.

Cont'd...

**POLICY: COMMUNITY USE OF FACILITIES & GROUNDS
OUTSIDE OF SCHOOL HOURS**

3. **AUTHORITY**

The Board assigns the responsibility for the Community Use of Facilities & Grounds policy to the Secretary-Treasurer.

4. **PRIORITY FOR USE**

Allotment of school district facilities and grounds shall be made on the basis of the following priorities:

1. Regular school curricular and organized extra- curricular activities.
2. Adult and continuing education credit course programs, including those co-sponsored by other publicly funded educational institutions.

Where feasible, education programs under the second priority will be held in designated centres. These schools will normally be responsible to undertake their own allocations and booking of space for user groups.

3. Historical user groups, which are defined as those who held a Rental License of a facility or grounds in the year immediately preceding a current application for use. Historical groups have right-of-first refusal for the same area, day and time, provided such group submits a renewal application within district booking deadlines.
4. Surrey Parks, Recreation & Culture and White Rock Leisure Services courses and programs.
5. All other outside groups including non-profit and commercial or "private" ventures.

The above priorities apply, except where a Board approved agreement requires otherwise.

Despite historical rights, any user may be bumped from a particular time, day or facility or grounds based on the above noted priority.

**POLICY: COMMUNITY USE OF FACILITIES & GROUNDS
OUTSIDE OF SCHOOL HOURS**

5. NEW AND RENEWAL APPLICATIONS

All new and renewal applications must be made on the appropriate form, and must be submitted to the Facility Rentals Department for Rental License arrangements as per regulation. The Facility Rentals Department will secure the necessary approvals of the Principal/Building Manager for each Facility/Grounds license request.

The Facility/Grounds Rental License is not valid until approved by the appropriate signing authorities of the Board and the user group and the appropriate payment has been received.

The Facility Rental Department may revoke approval of a Facility/Grounds Rental Contract where the user is unable to satisfy concerns expressed by the Principal/Building Manager. Claims of unreasonably revoked approval shall be adjudicated by the Secretary-Treasurer.

6. USER FEES

User fees are comprised of five parts: (a) facility and/or grounds rental charges; (b) custodial charges; and (c) security charges; (d) carbon surcharge/taxes and (e) other fees.

User groups will be assessed rental charges as per regulation. Rental charges are set periodically after regular review by the district to reflect community standards in other Lower Mainland public organizations and school districts. The charges are designed to help offset costs of heat, light and water, regular maintenance, administration, and depreciation through use as well as compensating the site for facilitating the access. The portion of the rental charge that is directed to the site for facilitating the access is as per regulation.

Rental rates and charges for custodial and security will vary according to the type of group, its activity, and the facility or grounds used. Rental charges and charges for custodial and security shall be agreed to in writing by the renter(s) before authorization or access is permitted. Where payment is required, it shall be in advance and may include a security deposit.

Failure by user groups to submit appropriate payment may result in the immediate cancellation of facility and/or grounds usage privileges.

**POLICY: COMMUNITY USE OF FACILITIES & GROUNDS
OUTSIDE OF SCHOOL HOURS**

7. WAIVER OF RENTAL FEES

Where a rental group has donated in cash, or in kind, to the school district or a school, or a program, fifty percent (50%) of said donation may be applied as a credit to a rental contract in the subsequent year. Note that the rental credit does not apply to that portion of a donation for which an official donation receipt for tax purposes was issued by the school district.

Rental fees may be waived where there is a pre-existing agreement with the school district, the guidelines for which can be found in Regulation #10400.1.

A request for the waiving of rental fees must be submitted in writing to the Facility Rentals Department for consideration.

8. CONSUMPTION OF ALCOHOLIC BEVERAGES

External user groups may request to serve alcohol at an event where an approved License for Use has been obtained from the Facility Rentals Department. Requests to serve alcohol must be approved by the Secretary Treasurer or designate, in writing, before the rental date. Alcohol may not be served by district, school, PAC or other internal school district user groups.

In addition to approval from the Secretary Treasurer, the Liquor Control and Licensing Act requires users to obtain a Special Occasion License from the RCMP.

ALIGNMENT, SUSTAINABILITY AND COHERENCE
SUPPORTING QUALITY IN SURREY SCHOOLS

This Report provides details of the Surrey School District's Annual Budget for the 2012/2013 school year, being brought for the Board's consideration at tonight's meeting. Budget development followed an extensive consultative process including requests, advice and suggestions received by the Board and its staff. Input was provided by many groups and individuals during Community Forums, Liaison Meetings and focus groups with various education partners throughout the school year.

Trustees have considered their budget options in the light of three key principles: alignment, sustainability and coherence. Effective organizations ensure that resources and the related actions are **aligned** with the highest priority work that must be done to meet declared goals. It is also essential that the Board provides support in a way that is **sustainable** over time. There are few initiatives in public education that can make a positive difference if they are in place for one year and then withdrawn the following year due to a lack of ongoing resources. The concept of **coherence** reminds us that the Board's funded priorities should work together, in a sensible, transparent and well-coordinated manner, leaving no doubt about the district's key work and how success will be achieved.

OUR VISION:

School District No. 36 (Surrey) continues to offer a rich diversity of learning experiences enabling our students to achieve excellence in many ways. Our district supports the healthy aspirations of the well educated student and all that it exemplifies. In addition to academic programs, students have many opportunities to excel in the Visual and Performing Arts, Technology, Career Exploration, Physical Education and Athletics, to develop leadership skills and social responsibility and to engage in the study of language and culture. Our schools are committed to providing quality service in responding to the diverse needs of our learners and ensuring that they experience a high quality, well rounded education. Schools strive to fulfill this commitment by working in partnership with parents and the community. The district supports its schools in:

- Providing Quality Education

- Support Professional Learning.

BOARD GOALS

In keeping with its vision to provide quality service to meet the diverse needs of our learners and ensuring that they experience a high-quality, well-rounded education the Board has declared the following as its highest priorities. As always, there is also other key work that continues, focused on supporting success for all learners.

1) We support student success through continued attention to:

- Improving Reading, Writing and Numeracy for all students. Particular emphasis will be placed on supporting Aboriginal students, students who have special needs, English Language Learners and those students who are disadvantaged by poverty or other barriers to learning.
- Providing the necessary training and in-service to build capacity of all educators in the areas of differentiated instruction and quality assessment so they can respond effectively to the diverse needs of students.
- Improving students' attention to physical fitness and their understanding of the factors and decisions that influence healthy living.
- Developing strategies to assist parents in supporting their children's learning.

2) We support schools in their focus on positive citizenship, with a specific emphasis on:

- Socially responsible behaviour
- Safety, well-being and conditions for student success
- Leadership skills in contributing to classroom and community.

3) We continue to focus on improving the six-year completion rate for secondary students by:

- Ensuring appropriate and effective transitions at key points in the K-12 learning journey
- Providing a strong, continuous, coherent emphasis on career and education planning and goal setting

SCHEDULE: 3 (c)

TOPIC: REPORT OF THE 2012/2013 BUDGET COMMITTEE

- Providing a wide range of alternative pathways leading to school completion.
- 4) **We will continue to work collaboratively with our Community-Schools partners to develop structures and strategies that ensure children are emotionally, socially and physically supported to achieve their full potential, with an emphasis on:**
- Children being ready, able and motivated to learn
 - Parents and caregivers experiencing support and active engagement in a continuum of services addressing their specific needs
 - School personnel engaging and collaborating with community partners to support the learning and development of children.

The Board aligns its personnel and financial resources in support of these goals. It also commits to monitoring and improving all programs and services by ensuring stability and sustainability, fiscal and operational effectiveness, and responsiveness to growth and change.

OPERATING FUND

THE 2011/2012 OPERATING BUDGET

On February 10, 2012 the Board filed a balanced 2011/2012 Amended Annual Operating Budget.

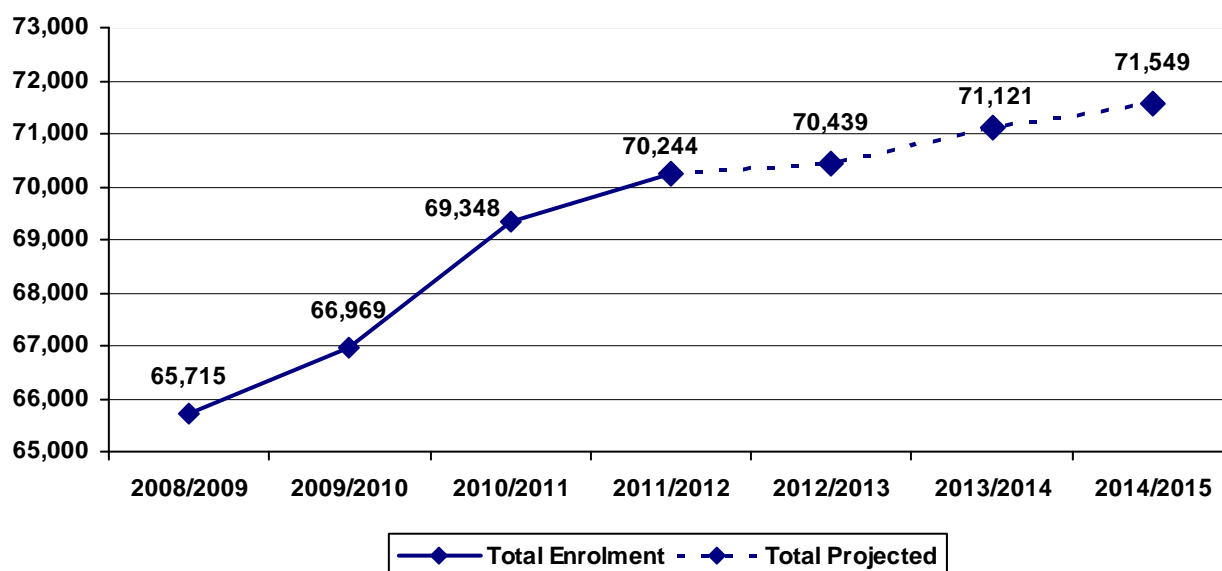

OPERATING GRANTS FOR 2012/2013 BUDGET

The Ministry of Education made a total of \$4.725 billion available to school districts for the 2012/2013 school year for a projected enrolment of 550,800 full time equivalent students (FTEs). Surrey's preliminary grant allocation is \$557.5 million, excluding any possible provincial holdback allocation. The district's preliminary grant is based upon a projection of 70,439 student FTE's for the full year. A detailed distribution of grants and funding rates can be found on the Ministry of Education website www.bced.gov.bc.ca/k12funding/.

ENROLMENT

Graph 1 shows the change in the total full-time equivalent student enrolment, including school-aged students, adults and distributed learning (Surrey Connect) students for the full year since 2008/2009, as well as projected enrolment for the next few years. Enrolment continues to grow. The projected enrolment growth for 2012/2013 is 195 students FTE.

Graph 1 - Projected Enrolment

THE 2012/2013 BUDGET

The 2012/2013 Budget Committee began its deliberations early in January and held several meetings in subsequent months. The Budget Committee met with various groups to hear about the educational needs of students in the school district and to better appreciate and understand stakeholders' concerns. The Budget Committee received input from elementary and secondary school administrators as well as from parents and employee stakeholders through group forum discussions. In addition, the Budget Committee received input from stakeholder and community groups on various initiatives to be considered in the development of the Board's budget.

Our current budget challenges are very different from those faced by other school districts. Surrey has benefited from rapidly increasing student enrolment over the past decade and the per pupil funding formula has been helpful during a time of growth. However, with anticipated revenues from student growth increase, it is not enough to maintain the same levels of service year after year.

The Board recognizes that its three-fold strategy (**reduce expenditures, increase operational efficiencies, increase revenues**.) must be manageable and sustainable over the duration of the current economic challenge. There is much more work to be done in reviewing and changing our operating structures so that resources can be reallocated to the Board's highest priorities.

An anticipated budget surplus of \$13.7 million projected for the end of June 2012 will be used to balance the 2012/2013 operating budget. However, the use of surplus funds to

support on-going expenditures does create financial challenges that will need to be addressed.

REPORT ON ADMINISTRATION COST REDUCTION

The Board makes every effort to ensure that resources are allocated to support direct services to students. This continues to be recognized within the 2012/2013 operating budget, with reductions focused as much as possible away from direct impact to classrooms. As shown in the tables below, district administration, as a percentage of the total operating budget, continues to be one of the lowest in the province, despite increased student enrolment and additional staffing FTE.

The Surrey Board of Education

Mission, Vision, Values and 2012/13 Goals

Our Mission:

Through quality teaching and learning, we commit to engaging our students in their growth as individuals and in their development of the knowledge, skills and attributes necessary to contribute to a healthy, democratic and diverse society.

Our Vision:

THE SCHOOLS OUR CHILDREN DESERVE

Our schools are committed to providing quality service in responding to the diverse needs of our learners and ensuring that they experience a high quality, well rounded education. Schools strive to fulfill this commitment by working in partnership with parents and the community. The Surrey School District supports its schools in:

Providing Quality Education

Our district supports the healthy aspirations of the well educated student and all that this exemplifies. We promote the development of students in becoming:

- Creative thinkers, innovators, and problem solvers
- Effective communicators
- Literate and numerate
- Skillful at accessing, evaluating, synthesizing and presenting information
- Effective collaborators
- Socially responsible
- Flexible and able to adapt to change
- Committed to personal health and fitness

Developing Socially Responsible Citizens

Parents, schools, and communities share the responsibility for students' personal development. Socially responsible individuals are able to meet life's challenges with courage, confidence and optimism in a way that conveys respect for themselves and others. Through authentic learning experiences, schools strive to cultivate these attributes which are essential to the development of leadership skills and active participation in a democratic society.

Supporting Our Aboriginal Learners

Aboriginal learners achieve greater success when they feel a strong sense of belonging and a valued place in the school community. Our schools are committed to further developing a deep respect for Aboriginal learners' experiences and for the importance of heritage, extended family, culture and tradition that play such a large part in supporting each learner. Success for Aboriginal students requires a commitment from and collaboration among departments throughout the school district to ensure there are services in place to increase the quality of the learning experiences for our Aboriginal students.

Preparing Our Graduates for the Future

Curiosity, aptitude, and learning preferences play significant roles in students' life choices and career paths. Our schools open "pathways of possibility" for students by providing a broad range of programs and nurturing talents and interests. They are responsive to the changing expectations of and opportunities in the work world.

Helping Parents Support their Child's Learning

Our district sees parent involvement as vitally important to student success. Parents support their child's learning in a variety of ways, which change over the course of the child's experience in school. Evidence indicates that parent involvement must be nurtured and celebrated so that parents recognize themselves as valued partners in the learning process.

- Parents must perceive schools as welcoming environments that support their involvement.
- Sustainable structures must be in place that support an effective working relationship between parents and the school.

Promoting Broader Community Involvement

Schools rely upon the supports of the larger community in order to address the diverse needs of students and their families. They provide services and supports that increase the strength of our communities.

- Partnerships involve shared ownership focused on common goals.
- The development of community is enhanced through the expanded role of the school and its community partners.

Supporting Professional Learning

Student learning and achievement are enhanced by quality teaching and skilful leadership. Professional learning builds individual and system capacity through attention to educational research and focused inquiry. Surrey schools support high quality professional learning that is:

- Focused on student learning.
- Comprehensive and sustained over time.
- Embedded in the daily work of educators.
- Collegial and collaborative.

Our Values and Beliefs:

The Surrey Board of Education assumes its responsibility to provide leadership and direction to School District No. 36 (Surrey). In so doing, the Board subscribes to the following statements of beliefs and guiding principles.

- ✓ the involvement and support of our diverse communities

We seek to:

- ✓ instill in learners an appreciation of learning as a lifelong process
- ✓ prepare each learner to assume responsible citizenship, community and career roles as adults in society

We commit to:

- ✓ decision-making that is in the best interest of all learners
- ✓ safe and healthy learning environments
- ✓ accountability, both educational and financial
- ✓ being responsive to the needs of our community
- ✓ appropriate and equitable allocation of financial resources

We promote:

- ✓ acceptance and respect for diversity
- ✓ dynamic leadership at all levels of the organization

Our District Goals for 2012/2013

In keeping with its commitment to meet the diverse needs of our learners, the Board declares the following as its highest priorities for 2012/2013. In doing so, the Board acknowledges that there is other ongoing key work focused on supporting success for all learners.

1) We support student success through continued attention to:

- Improving Reading, Writing and Numeracy for all students. Particular emphasis will be placed on supporting Aboriginal students, students who have special needs, English Language Learners and those students who are disadvantaged by poverty or other barriers to learning.
- Providing the necessary professional development to build the capacity of all educators in the areas of differentiated instruction, quality assessment, student engagement, and technology as a transformational tool so they can meet the diverse needs of students.
- Enhancing student, parent and educator commitment to shared ownership of personalized learning
- Increasing students' commitment to physical fitness and their understanding of the factors and decisions that influence healthy living.
- Enhancing strategies to engage parents in supporting their children's learning.

2) We support schools in their focus on positive citizenship, with a specific emphasis on:

- Socially responsible behaviour.
- Safety, well-being and conditions for student success.
- Leadership skills in contributing to classroom and community.

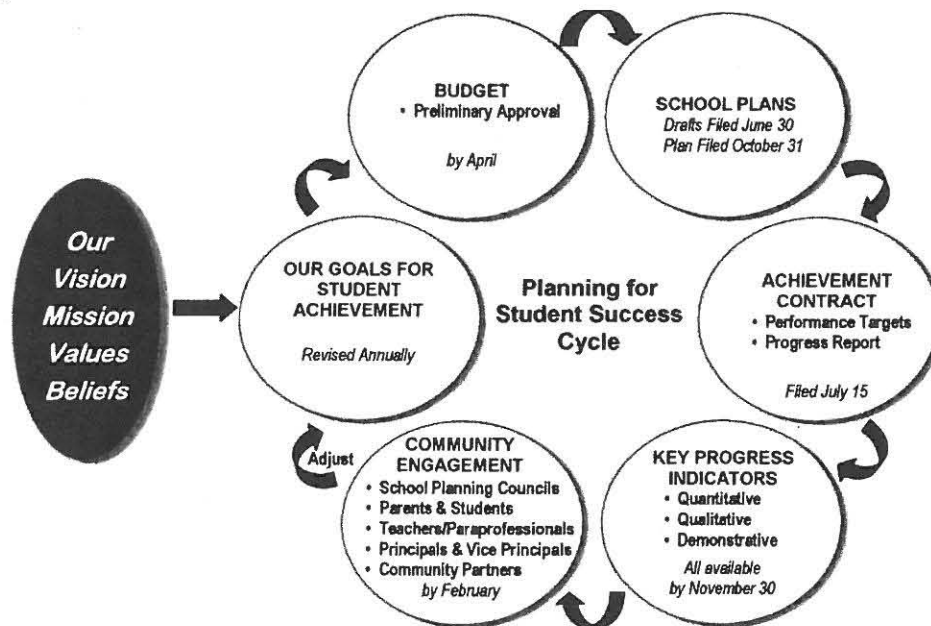

3) We continue to focus on grade to grade transitions and the secondary school completion rate by:

- Ensuring effective, supportive transitions at key points in the K-12 learning journey.
- Providing a strong, continuous, coherent emphasis on career and education planning and goal setting.
- Providing a range of high quality pathways leading to school completion.

4) We continue to work collaboratively with our community partners to further develop strategies that ensure children's emotional, social and physical capacity to achieve their full potential, with an emphasis on:

- Children being ready, able and motivated to learn.
- Parents and caregivers experiencing support and active engagement in a continuum of services addressing their specific needs.
- School personnel engaging and collaborating with community partners to support child learning and development.

Planning for Student Success

Renewing and Affirming Our Vision:

During the spring of 2009 our District engaged with more than nine hundred parents, teachers, students, school administrators and community partners in a process to affirm and renew its vision of what schools need to pay attention to in order to prepare students to have successful, productive and meaningful futures. This work built on the larger, more extensive process that was undertaken during the 2003-2005 school years.

The resulting vision, "The Schools Our Children Deserve" will provide the District and its schools with valuable and necessary guidance as it develops its short and long term goals for improving student achievement. This will assist us in planning for growth and change in an ever changing community and society.

Process for Establishing School District Goals:

The Surrey School District has established a cyclical process for developing its student achievement goals and planning for improvement which begins with an analysis of student achievement, survey, and demographic data as well as an extensive series of community engagement activities. Activities have included:

- Regional meetings with School Planning Council, and Parent Advisory Council representatives, and
- A series of focus group sessions and liaison meetings involving parents, post-secondary representatives, employee groups, students, members of the business community, and other community partners.

As indicated in the diagram this cycle concludes with the filing of the achievement contract with the Ministry of Education.

The Surrey Board of Education thanks the many people who have participated in the process and have provided much valuable input into the development of the District's 2012/13 goals. More specific information pertaining to the goals may be found on the District's website at www.sd36.bc.ca.

TOPIC: **ELIGIBLE SCHOOL SITES PROPOSAL -
2012-2016 CAPITAL PLAN**

The Eligible School Site Proposal is a required component of the Capital Plan submission, which must be passed annually by Board resolution and referred to local governments in the District for acceptance pursuant to the ***Local Government Act***.

The Eligible School Site Proposal involves extensive consultation with the City of Surrey and the City of White Rock. Both municipalities provide revised 10-year projections for residential development consistent with their Official Community Plans, Regional Context Statements and Neighbourhood Concept Plans. Based on that work, the information provided by City staff was used to project the number of eligible school age children which would be generated by growth and to estimate the number of eligible school sites required by the School District, including approximate number, location and cost of school sites to be included in the 2012–2016 Capital Plan.

It is noted that the Ministry of Education has, to date, approved 16 eligible school site acquisitions since the inception of the Eligible School Site Proposal process in 2001. Site acquisition projects that have received funding approval (for capital plan years 2001 through 2011) are not included in the 2012-2016 Eligible School Site Proposal.

Appraisals have been conducted to provide a time adjusted market analysis of the bare land cost of school sites and to estimate the cost increase of off-site work for future school sites. These estimates, together with recent appraisals conducted for acquisition of approved sites, were used to calculate revised bare land and serviced land cost estimates for future eligible school sites. These costs are shown in Schedule B.

There will be no change to the School Site Acquisition Charge (SSAC) bylaw rate applied to new development units, based on calculations consistent with Provincial School Site Acquisition Charge Regulations. The SSAC bylaw rate is currently set at the maximum allowed by the Local Government Act and Provincial Regulations.

The following information has been considered:

1. The Eligible School Site Proposal projections have been discussed with planning department staff for the City of Surrey and the City of White Rock. Municipal staff have provided updated growth projections for the period 2012 to 2021 based on the latest demographic data and market trends for housing (Schedule 'A').

(Continued)

MEETING DATE: 2012-06-21

SCHEDULE: 3(g)

TOPIC: **ELIGIBLE SCHOOL SITES PROPOSAL -
2012-2016 CAPITAL PLAN**

2. A projection of the number of additional school age children, as defined in the *School Act*, generated by the projected eligible development units for the period 2012 to 2021 has been revised based on the new projections provided by the City of Surrey and the City of White Rock (Schedule 'A').
3. The approximate size and the number of school sites required to accommodate the number of children projected (Schedule 'B').
4. The approximate location and value of school sites (Schedule 'B').

The following motion is recommended:

THAT WHEREAS the Board of Education of School District No.36 (Surrey) has consulted with the City of Surrey and the City of White Rock on these matters;

THEREFORE BE IT RESOLVED THAT based on information from local government, the Board of Education of School District No.36 (Surrey) estimates that there will be 40,534 development units constructed in the school district over the next 10 years (Schedule 'A' – Table 2); and

THAT these 40,534 new development units will be home to an estimated 12,259 school age children (Schedule 'A' – Table 3); and

THAT the School Board expects 3 new school sites and 2 site expansions, over the ten-year period, will be required as the result of this growth in the school district and the site acquisitions will be located as presented in Schedule 'B'; and

THAT according to Ministry of Education site standards presented in Schedule 'B' these sites will require in total 11 hectares (approx. 28 acres). These sites should be purchased within ten years and, at current serviced land costs, the cost is estimated at \$24.85 million; and

THAT the Eligible School Sites Proposal as adjusted be incorporated into the Five Year Capital Plan, 2012-2016, and submitted to the Ministry of Education.
