[2] DELEGATIONS**(a) Surrey Retired Teachers Association – Heritage Committee, Alice Tiles**

Alice Tiles, of the Surrey Retired Teachers Association, Heritage Committee provided an update on the ongoing work of the committee. The committee is continuing to create a modest archive of the history of the District. Recently, the committee received a federal *New Horizons* grant that enabled them to work with Elgin Park Secondary students to record and transcribe interviews of retired Surrey teachers, providing an oral history. Further funding support from the BC Retired Teachers Association has enabled the Heritage Committee to compile modest archives. The majority of the collection was donated by Trudy Rutherford and the four hundred items are stored in the decommissioned, Grandview Heights Elementary School. Using the site has the following challenges: there is no heat or running water, there are rodents and the committee pays \$42.00 per visit. The committee is concerned that the environment is not an ideal location for the storage of archives and that there are not adequate facilities for the committee to do the work.

The Heritage Committee is requesting the following support from the Board:

1. Provision of adequate space to store materials and for the ongoing work of the committee
2. The implementation of a Heritage Policy, similar to the Vancouver School District to ensure the ongoing preservation of the history of the District. The committee provided examples of agreements and the policy from the Vancouver School Board.

Trustees asked the committee about the amount of space needed and the response was a small room. Trustees also asked staff to look into the liability concerns regarding the committee using a decommissioned school site.

Vice Chairperson Larsen thanked the delegation for the information and for their very important work preserving the heritage of the District.

(b) Surrey 2016 Organizing Committee for the WBSC XV Women's World Softball Championship, Greg Timm, Chairman Surrey 2016 Organizing Committee

Greg Timm spoke to the Board on behalf of the Women's Baseball Softball Confederation (WBSC) XV Women's World Softball Championship Organizing Committee. Mr. Timm introduced the Board to the vision and mission of the Organizing Committee. He explained that this would be the first time that Surrey would host a World Championship of any sport. This event will include participants from over thirty nations, representing six continents,

Cont'd...

and will include over two thousand athletes. The economic impact is predicted to be in excess of twenty-million dollars. The event will bring together diverse cultural communities and increase awareness about the athletes and softball. In addition, the tournament organizers expect that the International Olympic Committee will attend as they will be voting on whether to bring softball back to the Olympics. Mr. Timm highlighted that while softball has very high calibre athletes, they do not have the same funding as other international competitions. Therefore, they are seeking sponsorships and support from companies and the community in order to help fund the event.

The primary venue of competition will be Softball City, which is within walking distance of Semiahmoo Secondary School. Mr. Timm requested that the Board support the event through waiving the rental fee for Semiahmoo Secondary. The plan would be to use Semiahmoo Secondary for athlete accommodation; transportation costs would be saved as athletes would be able to walk to the venue. Mr. Timm also inquired if the Board would support the Organizing Committee engaging students in various ways including: contests, adopt-a-nation, presentations and the distribution of promotional material.

Trustees thanked the committee for their work and for informing the Board about this exciting event coming to Surrey.

of

Board Authorized Courses for Board Approval

INFORMATION: Thursday, October 22, 2015
ACTION: Thursday, November 12, 2015

Board Authorized Courses are offered by the School Board to meet student needs and interests. They are authorized by the Board according to requirements set by the Ministry of Education. There is no limit to the number of Board Authorized Courses that may be used as part of the 28 credits of electives students need to fulfill the graduation requirements for the Graduation Program.

The following course has been submitted for approval by the Board:

1. Writing 11

This course intends to give students the opportunity to create an enduring understanding of their own voice and through writing, develop a sense of self awareness and world comprehension. The fostering of a love of language and literature is fundamental to the student's long term understanding. Explicitly, the course will provide opportunities for students to become better writers, more self-reflective thinkers and develop better skills to work cooperatively and collaboratively (peer and self-assessment/reflection) while building a portfolio of work that reflects their growth as writers.

As they help co-design their own learning and work with their peers to co-create the foundations and themes of the course, they will be developing exploratory, critical and analytical thinking. Ultimately, this course intends to allow students to foster a deeper, more personal understanding of the writing process (drafting, reflection and revision) and recognize their own perspective and place in the world through their written expression within a supportive, collaborative community of writers. This course is designed for students who show an interest in self-expression, writing, social media and other creative mediums not necessarily explored in depth in other courses.

Description

This course intends to give students the opportunity to create an enduring understanding of their own voice and through writing, develop a sense of self awareness and world comprehension. The fostering of a love of language and literature is fundamental to the student's long term understanding.

Explicitly, the course will provide opportunities for students to become better writers, more self-reflective thinkers and develop better skills to work cooperatively and collaboratively (peer and self assessment/reflection) while building a portfolio of work that reflects their growth as writers.

As they help co-design their own learning and work with their peers to co-create the foundations and themes of the course, they will be developing exploratory, critical and analytical thinking. Ultimately, this course intends to allow students to foster a deeper, more personal understanding of the writing process (drafting, reflection and revision) and recognize their own perspective and place in the world through their written expression within a supportive, collaborative community of writers. This course is designed for students who show an interest in self-expression, writing, social media and other creative mediums not necessarily explored in depth in other courses.

Rationale

The course is based upon differentiated methods of assessment, inquiry based learning, innovation, and social emotional learning inspired by students' individual passions. Writing 11 will give students the freedom and flexibility to seek out and develop their own prompts and respond in an array of writing forms.

Board Authorized Courses for Board Approval

INFORMATION: Thursday, October 22, 2015

Board Authorized Courses are offered by the School Board to meet student needs and interests. They are authorized by the Board according to requirements set by the Ministry of Education. There is no limit to the number of Board Authorized Courses that may be used as part of the 28 credits of electives students need to fulfill the graduation requirements for the Graduation Program.

The following courses have been submitted for approval by the Board:

1. Linguistics 11

Linguistics 11 is based on the inquiry approach. It is a course driven largely by the interest of the students. It is meant as a vehicle for students to explore the system of language, how language connects peoples and cultures to themselves as well as how it allows individuals to see themselves as part of a bigger system. Students often feel frustrated that schools can't offer languages that they want to engage in. This course would allow students to connect and engage with a particular language of their choice. There are three sections to this course. First, the introduction which includes the information about language systems that students will need in order to explore and make reasonable goals about their language learning. Second, the model language module allows, students to become aware of the language skills necessary to reach their goals in their choice language. The third module is where the students form an inquiry question and set goals for what they want to learn in the target language and how they will do that. This last module will require students to access materials for language learning. This may mean texts but largely will need to be done using the Internet.

Course synopsis:

Linguistics 11 is based on the inquiry approach. It is a course driven largely by the interest of the students. It is meant as a vehicle for students to explore the system of language, how language connects peoples and cultures to themselves as well as how it allows individuals to see themselves as part of a bigger system. Students often feel frustrated that schools can't offer languages that they want to engage in. This course would allow students to connect and engage with a particular language of their choice. There are three sections to this course. First, the introduction which includes the information about language systems that students will need in

order to explore and make reasonable goals about their language learning. Second, the model language module allows, students to become aware of the language skills necessary to reach their goals in their choice language. The third module is where the students form an inquiry question and set goals for what they want to learn in the target language and how they will do that. This last module will require students to access materials for language learning. This may mean texts but largely will need to be done using the Internet.

Rationale:

Our modern learner must learn to be adaptable and be able to work collaboratively with people across the globe. Collaboration across the barriers of language will be a skill that our learners need. How do we learn to communicate? The learners of today will be put into situations in the work force where they may have to teach themselves or others language skills and must know how to do that. Often current language classes are focused on fluency but not every situation requires fluency. This course is perfect for learners to want to focus on specific language sets: language for travel purposes, language for business, spoken language with no written focus or written language where spoken is already there. This course allows students to begin to connect with heritage languages not spoken at home. It would be a perfect vehicle for students to connect with language that defines their cultural background ie: Aboriginal languages.

Organizational Structure:

| Unit 3 | Inquiry Language <ul style="list-style-type: none"> • Students choose target language and set goals of what/ how to learn | 50 hrs |
| Total Hours | | 100-120 hrs |

Unit/ Topic/Module Descriptions:

Unit 1:

In this unit students will be introduced to the structure of languages. This includes vocabulary and terms that will be needed to understand the topics needed to address during the inquiry into their choice language. Such terms include but are not exclusive to: register, dialect, accent, pidgin, and creole. Students will also learn about language families that exist and how languages change and evolve. This will include a study of how geography and geographical features affect language. As well, students will learn language acquisition theory and what affects language absorption. Students will reflect on past language learning situations and what was successful for their individual acquisition and what was not.

- Investigate the language learning community
- Understand how culture and society affects language
- explain how language contributes to personal identity
- Use knowledge of languages to share understanding

- defining dialect and register in a language and explain how it impacts oral and written language
- exploring how concepts of formal/informal forms affect communication to a specific audience
- understanding that a language learning community can be formulated a variety of ways using internet resources, personal contact, text and video
- explaining how the history of a language and its people affect its geographical area
- discovering how language can connect you to your cultural heritage, contribute to sense of self and belonging to a global community
- extending thinking by sharing reflections of personal experiences in understanding and acquiring languages

Unit 2:

In this Unit, teacher will model language learning by teaching a target language. Students will use this experience to identify language skills of reading, writing, spoken production, spoken interaction and listening. They will identify personal challenges to their language learning and identify ways in which to overcome or strengthen these areas. Students will also use this model language-learning module to identify areas of strength and how to use those areas to maximize language acquisition.

of the**

**ADMINISTRATIVE MEMORANDUM
(Regular)**

MEETING DATE: 2015-11-12

TOPIC: **ELIGIBLE SCHOOL SITES PROPOSAL 2015-2019 CAPITAL
PLAN**

A School Site Acquisition Charge (SSAC) is imposed on new eligible development units for the purpose of providing funds to assist school boards in paying the capital cost of eligible school sites. To date, 16 eligible school sites have been purchased since the inception of the SSAC in 2001.

Pursuant to the Local Government Act, an Eligible School Site Proposal (ESSP) must be prepared, and approved by the Board of Education annually. Once approved, the ESSP is referred to the City of Surrey and City of White Rock for acceptance.

Development of the ESSP involves extensive consultation with the City of Surrey and the City of White Rock staff. Both local governments provide 10-year projections for residential development consistent with their Official Community Plans, Regional Context Statements and Neighbourhood Concept Plans. That information is then used to project the number of school age children that would be generated by the additional housing units. The estimated number of school aged children is then used to estimate the number of school sites required to accommodate that demand.

Schedule B of the attached document outlines the draft 2015 ESSP, which identifies six properties, for the Board's consideration. All six properties formed a part of the approved 2014 ESSP and the values have been updated to reflect current market conditions. The six properties and values also match those included in the district's 2015/16 Five-Year Capital Plan submission to the Provincial Government.

SCHEDULE: 3(e)

TOPIC: **ELIGIBLE SCHOOL SITES PROPOSAL 2015-2019 CAPITAL PLAN**

The SSAC bylaw rate is currently set at the maximum allowed by the Local Government Act and Provincial Regulations. Therefore, no change is required to the School Site Acquisition Charge (SSAC) bylaw rate applied to new development units, based on calculations consistent with Provincial School Site Acquisition Charge Regulations.

Prior to submitting the ESSP to the Ministry of Education, the proposal must formally be referred to the City of Surrey and the City of White Rock who may:

- Pass a resolution accepting the proposed ESSP; or
- Respond in writing to the School District indicating that it does not accept the ESSP, documenting reasons for the objection.

If the Local Government fails to respond within 60 days of receiving such a request, it is deemed to have agreed to the proposed ESSP requirements.

The following information has been considered:

1. The Eligible School Site Proposal projections have been discussed with planning department staff for the City of Surrey and the City of White Rock. Municipal staff have provided updated growth projections for the period 2015/16 to 2024/25 based on the latest demographic data and market trends for housing (Schedule 'A').
2. A projection of the number of additional school age children, as defined in the *School Act*, generated by the projected eligible development units for the period 2015/16 to 2024/25 has been revised based on the new projections provided by the City of Surrey and the City of White Rock (Schedule 'A').
3. The approximate size and the number of school sites required to accommodate the number of children projected (Schedule 'B').
4. The approximate location and value of school sites (Schedule 'B').

SCHEDULE: 3(e)

TOPIC: **ELIGIBLE SCHOOL SITES PROPOSAL 2015-2019 CAPITAL PLAN**

IT IS RECOMMENDED:

THAT based on consultation with City of Surrey and the City of White Rock on the Eligible School Sites Proposal (ESSP), the Board of Education of School District No. 36 (Surrey) estimates that there will be 28,086 (33,428 including suites) development units constructed in the school district over the next 10 years (Schedule 'A' – Table 2); and

THAT these 33,428 new development units will be home to an estimated 6,634 school age children (Schedule 'A' – Table 3); and

THAT the School Board expects 3 new school sites and 3 site expansions, over the ten-year period, will be required as the result of this growth in the school district and the site acquisitions will be located as presented in Schedule 'B'; and

THAT according to Ministry of Education site standards presented in Schedule 'B' these sites will require in total 12.6 hectares (approx. 31.1 acres). These sites should be purchased within ten years and, at current serviced land costs, the cost is estimated at \$58,384,717; and

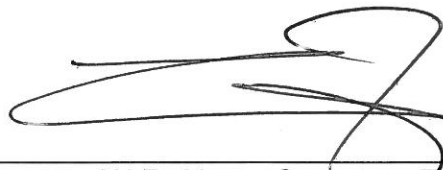

THAT the 2015 Eligible School Sites Proposal be forwarded to Local Government for acceptance; and

THAT pending Local Government acceptance, the 2015 Eligible School Sites Proposal, be submitted to the Ministry of Education.

“THAT WHEREAS the Board has two (2) policies covering corporate sponsorship: Policy #10800 - *Education, Business, Community Partnerships*, and Policy #10815 – *Business Development*; and WHEREAS the Board has received reports in the past around the corporate sponsorship activities including the four (4) main categories: filming; foundations and corporate donations; promotional programs; and facility rentals; and WHEREAS concerns have been expressed to Trustees by parents, staff and community representatives regarding the disbursement of the funds raised through corporate sponsorship activities; and WHEREAS the Board would like to ensure that clear information is provided to students, parents, staff and the community about the financial rewards and individual school benefits that are realized through corporate sponsorship programs.
THEREFORE BE IT RESOLVED THAT Administration provide quarterly reports to the Board regarding the corporate sponsorship activities in the school district with full disclosure of the funds and the allocation of proceeds realized in these endeavours.”

At its 2005-04-14 meeting, the Board revised this motion, directing staff to provide semi-annual instead of quarterly reports.

- Policy #10805 – *Promotion of External Agencies Through Schools*; and
- Policy #10815 – *Business Development*.

Staff have prepared the following schedules in relation to the Business Development operations for the six months ended 2015-06-30.

- Revenue, By Project (**Schedule A**).
- Donations-In-Kind, By Project (**Schedule B**).
