

A special thank you to the many families that participated in the City of Surrey's **Safe & Active Schools Program** during the 2018/2019 school year. To wrap things up, all families are invited to participate in an online **Follow-up School Travel Survey**. This survey will help us to monitor changes in travel habits over the past year and better understand what influences transportation choices.

The survey is live now! We appreciate your time and feedback.

A bright yellow sun with rays is positioned above a white cloud-like shape that contains the survey URL. Other white and light blue clouds are scattered across the blue sky background.
