

2026/2027

Dear Parents or Guardians,

This year your child's class will take part in a dental health program at your child's school. This will be done by Fraser Health public health dental staff.

As part of this program, we will look at each child's teeth. We want to find and help children who have dental problems, which can affect their health and learning. This will help us monitor trends in early childhood dental health and evaluate the effectiveness of dental programs. Information about cavity rates in the Fraser Health region can be found by scanning this QR Code.

If we find any problems with your child's teeth, we will let you know by sending a letter home with your child. However, this quick check should not replace regular check-ups by your family dentist.

We make sure that this information stays private. We collect, use, and share this information only as allowed by law – the BC Freedom of Information and Protection of Privacy Act.

If you do not want your child to take part in this program, please contact us at 604-507-5417 at least one week prior to the scheduled date. If you do not contact us, we will include your child. If you choose not to participate, this will not affect your child receiving other services or in the quality of care provided.

If you have any questions about this program, or about your child's dental health, please contact us.

Sincerely,

Fraser Health Public Health Dental Staff
