SD 36 WOULD LIKE TO SAY THANK YOU TO THESE GENEROUS DONORS...

ASSAI

ASSAI provides fun, safe, accessible, and high-quality after school programming to students across BC that is designed to reduce barriers for all whether that be financial, socially, or behavioural. As the Surrey School District is recognized for its innovative programs, we are fortunate to receive \$158,000 towards continuing our after-school programs. This funding will be used towards supporting students with diverse abilities & disabilities, allowing them the opportunity to participate in activities they may otherwise not have the resources to access.

BEST BUY

Best Buy has generously awarded \$18,663 to Lena Shaw and James Ardiel to support their school communities with new technology. Best Buy's School Tech Grant program serves to help Canadian schools bring new technology into their classrooms and reduce barriers to learning opportunities.

BREAKFAST CLUB OF CANADA

Breakfast provides an essential source of nutrition for our students which allows them to begin their school day with a well-balanced meal for both their body and mind. Breakfast Club of Canada recognizes that not all students have reliable access to nutritious food in a safe and supportive environment. To aid in this, Breakfast Club of Canada generously donated \$42,800 to support daily breakfast at 26 schools throughout Surrey.

INDIGO

We wish to extend our profound gratitude to Indigo Love of Reading Foundation for selecting Bear Creek Elementary for their annual Love of Reading grant. \$75,000 will support filling their library shelves with inclusive and diverse books as well as implementing innovative reading programs.

JUMPSTART

The Surrey School District is the recipient of the Community Development Grant from Jumpstart and Sport Canada totalling \$125,000. With this support, the District can continue to provide dedicated after-school programming that focuses on our learners emotional and physical health. Students have the ability to participate in organized sports at no charge, to ensure all students have an equal opportunity despite barriers.

PC CHILDREN'S CHARITY

As breakfast and lunch are offered during classroom hours, PC Children's Charity proactively helps our schools throughout Surrey by donating \$304,547 towards offering nutritious, culturally centric, and sustaining meals to our students. Meal programs play a crucial part in each of our school communities, establishing healthy daily routines for our most vulnerable students and removing numerous barriers for families experiencing food insecurity.

RBC

RBC kindly donated \$60,000 towards the REACH and Bike Repair/Sheet Metal programs to allow students the opportunity to receive hands-on work experience and pre-employment certifications. Through the REACH program, students are provided with the opportunity to learn about a variety of careers and build on their interpersonal skills to find the best match, while being in supporting environment with encouraging adults. Students in the Bike Repair/Sheet Metal program learn basic training in sheet metal and bike technician repair to expand their career opportunities.

WEEKEND FOOD PROGRAMS

We would like to express our gratitude to Backpack Buddies, City Dream Centre, Starfish Pack, and Relate Church for their continuous help in providing weekend food hampers to our district. These community organizations have graciously supplied 36 schools in the district with more than 685 weekend food hampers each week. By providing these filled hampers, we can make sure that our students who are in need will have nutritious support throughout the weekend and school closures.
