## **Distribution of Rapid Antigen Tests for Ecole Salish Students**

Dear parents and guardians,

This week, the Ministry of Education began shipping COVID-19 rapid antigen tests to school districts across the province for distribution to students. We have now received test kits for our school. We have enough for each student. We do not have any additional kits, if students, lose or misplace the kits given to them. Please ensure your student brings home the kit on the day they are distributed. Students will receive their kits in C block (last period of the day) on Tuesday, March 1<sup>st</sup>.

Every student at our school will receive one package that includes 5 test kits for your family's use. For details on when to use this test, please visit the [BC Centre for Disease Control's website](#).

You can access instructions on how to use these kits [here](#). Please feel free to print these out or bookmark this link. If you have any questions about these test kits, please reach out to public health.

Thank you for your continued support.

Sincerely,

S. Hammond  
Principal  
Ecole Salish Secondary
