START YOUR SUCCESS STORY HERE

TAKING IT TO THE STREETS

KAARUN SANGRA
*Bachelor of Science in
Psychiatric Nursing*

*“The Psychiatric Nursing
program sets you up for success
because it’s career-focused.”*

A typical workday for Kaarun involves hitting the rougher neighbourhoods of Surrey to meet with his clients. Once he finds them – not always easy as many are homeless – he chats with them to see how they’re doing, offers them mental health supports, and gives injections and doles out medications when necessary.

Kaarun is part of a community mental health team that works with people living with severe mental illness in Surrey. He’s a street nurse, and he loves his job.

“I really enjoy hearing people’s stories and getting them involved in their own care, and just showing them life can always be better.”

Kaarun was well prepared to take on his role with the Surrey Assertive Community Treatment (ACT) team (which also includes a psychiatrist, social worker and occupational therapist). In his third year of the Psychiatric Nursing program, he became the first-ever psychiatric nursing student hired at a hospital in Dawson Creek, in the inpatient psychiatric unit.

“We only had three nurses for 15 patients, so there was a lot of on-the-spot decision-making and working independently. That experience is what motivated me to keep doing this job and made me fall in love with it.”

A six-week rotation with Vancouver ACT and a preceptorship in his final semester with Surrey ACT further ensured he was job-ready once he graduated. After working at Surrey Memorial and as a casual nurse with Surrey ACT, he is now a full-time street nurse on the ACT team.

“The Psychiatric Nursing program sets you up for success because it’s career-focused. You get so much hands-on experience, and the instructors are really supportive. They’re always giving you feedback on how you can do things better.”

KAARUN'S PATHWAY:

High school > Academic Foundations
for Potential Psychiatric Nursing
Applicants > Bachelor of Science in
Psychiatric Nursing > Registered
Psychiatric Nurse

IS DOUGLAS RIGHT FOR ME?

Choosing a school can be tough: You want to find the right fit for you and your needs. Here are five questions to ask yourself and five answers about Douglas that will help you figure out if we're the right school for you.

WHAT DO I WANT TO DO?

If you know the answer to this question, we've got bachelor's degrees, career programs and university-transfer options to help you get started. And if you don't know, Douglas is a great place to find out. Here, you can explore your options while earning credits that can be put toward a credential, with the assurance that your time and money are being put to good use.

WHAT ATMOSPHERE DO I PREFER FOR LEARNING?

Classes at Douglas typically have no more than 35 students. This gives you the opportunity to interact with your classmates and ask your professors questions about what you're learning. It's harder to get that in first- or second-year classes at a big university, where there are sometimes up to 500 students per class.

DO I LIKE BEING PART OF A COMMUNITY?

Maybe you're a joiner – or maybe you aren't. Either way, if you like getting to know people and have them call you by name, you'll love the smaller community at Douglas.

HOW ARE MY GRADES?

Universities often require high grades to get in, while colleges are more flexible. If attending university is your ultimate goal, you can still start at Douglas and then transfer your credits, if chosen carefully, to a university.

HOW MUCH MONEY DO I HAVE FOR SCHOOL?

Douglas offers some of the most affordable tuition fees in the province. If you're planning on getting a bachelor's degree from a university, you can save over \$4,600 by doing your first two years at Douglas and then transferring. Double those savings if you stay at Douglas to complete your degree.

GETTING THAT PERSONAL TOUCH

PATRICK SHEEPWASH
Certificate in Engineering Foundations

"The biggest break you can give yourself is choosing a school where you're going to get extra support. Douglas is one of the few places where you actually get that support."

How does someone go from a having a GPA of 0.8 to being on the honour roll? Just ask Patrick.

The Engineering student's post-secondary journey got off to a rough start when he failed two classes in his first semester and was put on academic probation. But thanks to his self-determination – and support from his professors – he turned things around.

"I'd be emailing my calculus professor every week asking for clarification on things. And he would email back within an hour. It was incredible. I've heard from friends at big universities that it can take days to get a reply – if at all."

Chatting with his profs and getting to know them on a more personal level helped motivate Patrick, too. "All your teachers have master's degrees and PhDs, so it can be a little intimidating for someone doing their undergrad to come into that. Having those personal connections helps take that edge off."

Now a successful student with a solid

GPA, Patrick plans to transfer his credits to SFU or UVic to complete his bachelor's degree in engineering. He could have started his degree at a university, but he's glad he started at Douglas – and recommends the college route to students who are unsure where to begin their post-secondary studies.

"The biggest break you can give yourself is by choosing a school where you're going to get extra support. Douglas is one of the few places where you actually get that support."

PATRICK'S PATHWAY:

High school > Certificate in Engineering Foundations > Bachelor's Degree in Engineering

GET A DEGREE WITH A DIFFERENCE

Choose from 13 bachelor's degrees, all of them applied. That means you get hands-on learning in real workplaces to complement your classroom learning. This is a bonus for employers, who want to hire people with experience. Plus, you'll save over \$9,200 in tuition by getting your degree at Douglas instead of at a research university.

GIVING, BUT NOT GIVING UP

ADELIA PAUL
Bachelor of Science in Nursing

"Pushing myself to do better and to not give up got me to where I am today."

As a member of the Haisla Nation, Adelia is all too aware of the gaps in health-care services in northern Indigenous communities. As a registered nurse, she wants to do something about it.

"I really want to make an impact in nursing, for my own people at the very least. Indigenous health is an issue that gives me energy," says Adelia, a graduate of the Bachelor of Science in Nursing program.

But she's not stopping at health care. Adelia wants to join forces with Indigenous women in other fields, including social services, who are also looking to make a difference.

"Ideally, we will work together to close the gaps in services that are present right now for our people."

It's an ambitious project, but Adelia is up for the challenge. She has always fought to achieve her goals – and knows first-hand the power of persistence.

"Getting into the Nursing program was a challenge. There are tons of applicants, and I was denied three times in a row before finally getting in. Pushing myself to do better and to not give up got me to where I am today."

ADELIA'S PATHWAY:

High school > Academic Foundations for Potential Nursing Applicants > Bachelor of Science in Nursing > Registered Nurse

START UNIVERSITY HERE

Did you know you can start your studies at Douglas and then transfer your credits to a university to complete your bachelor's degree?

If you start at Douglas, you'll graduate with the same credential as students who started at university, but with a few advantages:

Get one-on-one support

Get to know your classmates and receive one-on-one support from your professors. Douglas classes typically have 35 students, whereas first-year courses at big universities can have up to 500 students in a class.

Apply what you learn

Get hands-on learning through work placements, overseas field schools, labs, field trips and on the stage (for performing arts students).

Save money

Save over \$4,600 by taking the first two years of your degree at Douglas.

HOW DOES UNIVERSITY TRANSFER WORK?

UNIVERSITY

**BACHELOR'S
DEGREE**

THE FUTURE IS ENVIRONMENTAL

ALEJANDRA LLANES

Associate of Arts in Environmental Studies

"It's fun to learn about the environment from different perspectives."

Alejandra's childhood was a tribute to sustainability: Her parents designed their home to be energy efficient through maximizing natural light and eliminating the need for heating and cooling systems. They even grew their own crops and raised their own animals for food. Inspired by her parents, Alejandra plans to become an architect so she can make her own contributions to sustainable housing.

"I explored environmental engineering first but wasn't a fan of the heavy math focus. I switched to environmental design because the creative aspects of architecture would allow me to express myself while helping the environment," she says.

Alejandra started with the Associate of Arts in Environmental Studies at Douglas to gain an understanding of the environment that she could apply to her future design work.

"The program is so versatile," she says. "Since environmentalism can be applied in almost every field, I was able to take a variety of courses, from biology to anthropology. It was fun to learn about the environment from different perspectives."

Alejandra graduated from the program and moved to Nice, France, where she is completing a bachelor's degree in sustainable design and innovation. From there, she'll move into a master's program so she can become a licensed architect.

ALEJANDRA'S PATHWAY:

High school >

Associate of Arts in Environmental Studies >
Bachelor's Degree in Sustainable Design
and Innovation > Master of Architecture

NOT SURE WHAT YOU WANT TO STUDY?

**DON'T WORRY, WE'VE
GOT YOU COVERED.**

Explore your options while accumulating credits you can put toward a program at Douglas or another school.

ACADEMIC FOUNDATIONS

Build your own program (with our help) by choosing 10 courses in the arts and sciences. Designed to help you meet the requirements for many different programs, the Certificate in Academic Foundations earns you 30 credits you can easily transfer to university or put toward a credential at Douglas.

**1
YEAR**

or

**30
CREDITS**

GENERAL STUDIES

Explore courses in the humanities, sciences, performing arts and business. Graduate with a Diploma in General Studies and 60 credits which, if chosen carefully, you can transfer to university or another program at Douglas.

**2
YEARS**

or

**60
CREDITS**

Engineering and Fabrication Technologies students get hands on in the fabrication lab, New Westminster Campus.

GET TO WORK

Launch your dream career in as little as one or two years. Choose from more than 40 programs:

DIPLOMAS 2 YEARS

- Computing Science
- Dispensing Opticianry
- Engineering and Fabrication Technologies
- Geological Resources
- Hearing Instrument Practitioner
- Hospitality Management
- Music
- Stagecraft and Event Technology
- Theatre
- Therapeutic Recreation

AND MANY MORE

CERTIFICATES 1 YEAR

- Accounting
- Basic Musicianship
- Communications
- Criminal Justice Studies
- Early Childhood Education
- Education Assistance and Inclusion
- Health Care Assisting
- Legal Office Administration
- Medical Office Administration
- Performing and Fine Arts

AND MANY MORE

MARKETING FOR SUCCESS

ILIA BUKHMATOV
Diploma in Marketing

“The Marketing program helped me develop professional qualities that can be applied to any business.”

Ilia wanted an education that would set him up for success no matter what field he worked in. The Diploma in Marketing caught his eye as a program that would open many doors over the course of his career.

“Marketing is today’s number one skillset,” he says. “The Marketing program helped me develop professional qualities that can be applied to any business.”

It helped him hone his hands-on skills as well, when he and his classmates got the chance to apply what they learned in the classroom by working with local businesses on marketing projects.

“We did research, marketing and communications plans, advertising – all aspects of marketing,” he says. “And there were deadlines as well, just like with a real job. We were stressed, but it was great.”

Now that he has graduated, Ilia plans to work in marketing with a construction firm. “With so many condos being built in Vancouver, there’s a huge need for marketers to help sell them,” he says.

ILIA’S PATHWAY:

High school >
Diploma in Marketing

APPLY WHAT YOU LEARN

Hands-on learning is built right into our programs. That means you get practical experience in your area of study before you graduate – which looks great on your resumé.

PRACTICUMS AND INTERNSHIPS

Get professional experience in your field of study during one or more supervised work assignments lasting from a few weeks to several months.

CLINICAL PRACTICE

Taking a health-care program? Work with real patients and clients in hospitals, clinics and other health-care settings.

CO-OPERATIVE EDUCATION

Alternate semesters of classroom studies with paid, full-time work with real businesses and organizations.

ON-CAMPUS FACILITIES

Put theory into practice in our science, engineering and health-science labs, recording studios, theatres and other applied learning facilities.

FIELD TRIPS AND FIELD SCHOOLS

Conduct research, collect data and observe phenomena out in the field. You won’t typically get this type of experience in first- or second-year university.

CAREER CENTRE

Gain skills and experience. Make money while going to school. Get your dream job. You can do it all with the **Career Centre**, where you’ll find:

- Work and volunteer opportunities
- Career coaches who can get you job ready
- Career-development workshops (resumés, cover letters and more)
- Career fairs, speed-networking sessions and other events

FRAMING WITH EXPERIENCE

PRABHJOT SANDHU
Diploma in Dispensing Opticianry

“You’re helping someone find a frame that suits them, and you’re helping them see. I like that blend of artistry and science.”

For Prabhjot, becoming an optician made total sense. The career combines everything she loves: health care, fashion and providing excellent customer service.

“You’re helping someone find a frame that suits them, and you’re helping them see. I like that blend of artistry and science.”

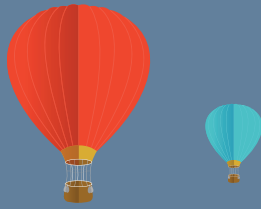

Douglas’s Dispensing Opticianry program was also a natural choice: The two-year program provided more hands-on opportunities than shorter programs at other schools, including several on-campus practicums and two full-time practicums at eye-care businesses.

“One of my practicums was at an optometry clinic, where I did all the fittings myself, from start to finish. I got a feel for what it was like as a dispensing optician in the real world. It was great for learning and building my confidence.”

Now a licensed optician, Prabhjot wants to one day open an optical shop with her sister – a fellow Douglas Dispensing Opticianry grad.

PRABHJOT’S PATHWAY:

High school > Diploma in Dispensing Opticianry >
National licensing exam > Licensed Optician

BECOME A GLOBAL CITIZEN

Being able to communicate and collaborate with people of diverse backgrounds is an essential qualification for many careers. Build these skills as you dive into other cultures, languages and ways of life through study abroad programs, or right on campus through activities, events and workshops.

STUDY ABROAD OPPORTUNITIES:

Field schools | Exchanges | Summer programs
Degree completion | International co-op

NEW! GLOBAL COMPETENCY CERTIFICATE

This new 15-credit credential will help you develop the knowledge and skills employers are seeking in the global workplace.

- Improve your critical thinking and intercultural communication skills.
- Expand your knowledge of diverse worldviews.
- Apply your new skills to a global/local learning experience, such as an exchange, field school or volunteer opportunity.
- Complete the certificate while doing your current program.

FINANCIAL SUPPORT FOR STUDYING ABROAD

Up to \$6,000 in scholarships is available to students studying abroad. You may also be eligible for a student loan.

BRANCHING OUT IN SPAIN

BY **AINSLEY GIRVAN**
*Bachelor of Arts in Applied
Criminology*

“Every class and every day, I’ve been able to take something positive and apply it to my education.”

I chose to go on exchange to challenge myself by living abroad. I wanted to experience everything that came with being in a different country: language, culture, food and lifestyle. It’s given me the time, space and energy to figure out who I am.

Although I’m a Criminology student, that program doesn’t exist at the Universitat de Vic in Spain. I took this as an opportunity to explore a different program: Business and Communications. Every class and every day, I’ve been able to take something positive and apply it to my education.

When you’re in a new place, you have no choice but to branch out. I’ve learned that I have to put myself in uncomfortable positions to make friends or order food. Now, I can tell future employers that I studied abroad in a country where I didn’t speak the language. I’ve developed tools for how to learn more effectively, how to better work in groups and how to communicate with non-English speakers. I highly recommend everyone do a semester abroad!

AINSLEY’S PATHWAY:

High school > Bachelor of Arts in Applied Criminology > International exchange

JOIN A TEAM

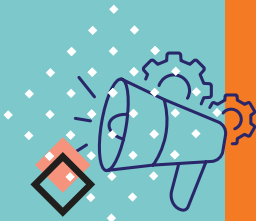

The Douglas College Royals athletics program is the most successful program in the Canadian Collegiate Athletic Association. With nine men’s and women’s teams competing in nine sports, Douglas offers more opportunities to play sports than any other college in B.C., and is the only Canadian college whose baseball and softball teams compete in the U.S.-based Northwest Athletic Conference.

PICK YOUR GAME Women’s Basketball | Men’s Basketball | Women’s Volleyball | Men’s Volleyball | Women’s Softball | Men’s Baseball | Women’s Soccer | Men’s Soccer | Women’s Curling

ROYALS ALL-TIME HIGHLIGHTS

- 65** All-Canadian awards

Coquitlam Campus

Students learn dances from around the globe with World of Dance.

GET INVOLVED

Meet new people, learn more about yourself and get involved in college life.

STRONG START: NEW STUDENT ORIENTATION

Get ready for your first semester with workshops, a campus tour and much more.

WELCOME WEEK

Find out how to access Wi-Fi, log into your Douglas College account, get a U-Pass, parking pass and more.

EDGE

Three days in September of fun activities led by experienced students.

FRIDAY HANGOUTS

One hour every other Friday where you can meet other students, learn new skills and have fun.

VOLUNTEERING

Gain experience and make a greater connection within the Douglas community.

RESEARCH DAY

Showcase your hard work and discoveries while honing your presentation and public-speaking skills.

EVENTS

There's something for everyone: annual health fair, mindfulness painting, beach volleyball, dance classes and more.

LEADERSHIP PROGRAMS

Build self-confidence, and learn and practise skills employers are looking for, such as effective communication and problem solving.

CLUBS

Join a club that matches your interests – or start your own. Offered by the Douglas Students' Union.

15 leadership programs

25+ annual events

40+ clubs

HOW MUCH DOES IT COST?

Douglas offers some of the lowest tuition rates in the province. Take the first two years of your bachelor's degree here instead of at a research university and save over \$4,600. Complete a four-year degree with us and save over \$9,200.

TUITION FEES			
	DOUGLAS	RESEARCH UNIVERSITY	YOU SAVE
Per course*	\$329	\$561	\$232
Per semester**	\$1,645	\$2,805	\$1,160
Per 2 years	\$6,580	\$11,220	\$4,640

*based on 1st- and 2nd-year 3-credit courses
**based on 5-course semester

SCHOLARSHIPS, BURSARIES AND AWARDS

Douglas offers more than 250 scholarships, bursaries and awards every year. Some are based on financial need, while others recognize academic achievement, community involvement and other criteria.

ARE YOU A GRADE 12 STUDENT?

If you've been accepted at Douglas, you can apply for entrance awards and scholarships of up to \$5,000 per year.

Visit douglascollge.ca/finaid for info on how to apply, application deadlines and more.

BUDGETING FOR YOUR FIRST YEAR

TUITION AND FEES: \$3,500

Depending on your area of study

STUDY RESOURCES: \$2,200

Including textbooks and equipment (based on university-transfer programs)

HOUSING AND FOOD: \$9,200

Living in shared accommodations, away from home

OTHER LIVING EXPENSES: \$3,600

Including cellular and internet services, clothes, recreation and personal care

TOTAL: \$18,500

HARD WORK PAYS OFF

ARIANA GOMES

Bachelor of Physical Education and Coaching

"Together with my income, these scholarships have helped me immensely."

Looking for ways to pay for school? Ariana has been there, too. The Bachelor of Physical Education and Coaching student wants to avoid taking out a student loan, so in addition to working a part-time job, she also applies for awards and scholarships.

For her high grades and contributions to coaching, Ariana has been awarded the Bob Bearpark Foundation Coaching Award (twice), the Julia Ascough Scholarship and the Douglas College Board Legacy Fund.

"Together with my income, these scholarships have helped me immensely. I've been able to fully pay for my education each semester without any student loans," she says.

Ariana's advice for her fellow students? Don't hesitate to apply for financial awards – and don't miss the deadlines.

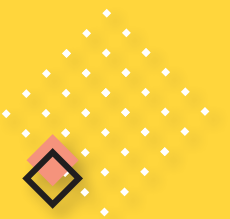

"I was so busy during my Grade 12 year that I missed the deadline for the entrance award, which could have potentially paid for most of my education. And it's so quick and easy to apply online. So plan ahead."

ARIANA'S PATHWAY:

High school >
Bachelor of Physical Education and Coaching

SERVICES FOR YOUR SUCCESS

ACCESSIBILITY SERVICES

Specialized services, equipment and programs to support students with disabilities.

CAREER CENTRE

Job coaching, skills workshops, resumé review, online job board and more.

COUNSELLING SERVICES

Manage personal, educational and career challenges with the help of professional counsellors.

DAYCARE

For children two-and-a-half to five years old. Space is limited. Fees apply.

DOUGLAS STUDENTS' UNION

Advocacy on tuition fees, transit and more; offers extended medical and dental; runs the Pride Centre.

ENROLMENT SERVICES ADVISING

Admission requirements, registration and financial-aid advising, transfer credit information and more for new and prospective students.

FUTURE STUDENTS' OFFICE

Info sessions, campus tours, guidance with choosing programs, and applying to Douglas, and more.

INDIGENOUS STUDENT SERVICES

Advice and referrals, assistance with application and funding information, events and more.

LEARNING CENTRE

Boost your skills in writing, math and more with peer tutors.

STUDENT SUCCESS ADVISING

Academic and program planning, financial and budget planning, student success strategy planning and more for current students.

STUDENT SUPPORT NAVIGATOR

Outreach and guidance for first-generation students (whose parents did not attend post-secondary), mature students and students from government care.

NEW PROGRAMS

GLOBAL COMPETENCY Certificate

1 YEAR

Get ready to thrive in the global workplace. See p. 10 for details.

EDUCATION ASSISTANCE AND INCLUSION Certificate

1 YEAR

Get the credential you need to become an Education Assistant. You'll focus on supporting children and youth in early-childhood, elementary- and secondary-school settings; and supporting adults with disabilities as they complete their post-secondary education.

GET EXPERIENCE
With two practicums at primary, middle or secondary schools, you'll graduate job ready.

GET HIRED
Around 5,400 new education assistant jobs are projected over the next 10 years in B.C.

FURTHER YOUR EDUCATION
Transfer your credits into the second year of our Classroom and Community Support (CCS) Diploma, which gives you a specialization in providing support to children with autism. If you want a bachelor's degree, the CCS Diploma ladders into the Bachelor of Arts in Child and Youth Care at Douglas. Some courses transfer to bachelor's programs at other universities.

COMPUTING SCIENCE Diploma

2 YEARS

Turn your love for video games and tech into an exciting career. In your first year, you'll learn the basics of computer programming and gain experience using C++ and Python. In your second year, you'll specialize in one of two streams: video game development or IT.

GET EXPERIENCE
This program is eligible for Co-operative Education, which means you get paid to work for real companies before you graduate.

GET HIRED
Nearly 6,300 new jobs for computer programmers and interactive media developers are predicted for B.C. over the coming decade.

FURTHER YOUR EDUCATION
If you want to complete a bachelor's degree, all first-year credits of the Computing Science Diploma are transferable to B.C. research universities such as UBC, SFU and UVic.

Job stats source:
B.C. Labour Market Outlook 2019

MARKETING Bachelor of Business Administration

4 YEARS

Become a marketing expert and help businesses grow. The BBA in Marketing offers courses in buyer behaviour, personal selling, e-marketing, promotional strategy, marketing research, management essentials and more. In your final two years, you'll focus on one of four concentrations: Digital Marketing and Communications Management, Hospitality Marketing, Professional Selling and Sales Management, or Trades Marketing.

GET EXPERIENCE
Graduate with practical experience that will make employers take notice. During the program, you'll work with local businesses to develop marketing plans. In year two, you'll do a marketing practicum where you'll work through the entire marketing process, from initial research to deliverables, with a local business.

GET HIRED
More than 22,000 job openings in the marketing industry are predicted for B.C. by 2027.

Psychosocial Rehabilitation
Physical and Health Education

GETTING INTO DOUGLAS

To get into Douglas, you must meet **ONE** of the following criteria:

- ☐ You completed high school or equivalent.
- ☐ You are one course short of high school graduation.
- ☐ You are 19 years old by the first day of classes.
- ☐ You are at least 17 years old on the first day of classes and have been out of high school for at least one year.
- ☐ You are a special needs student and have completed 12 years of study.

AND

- ☐ You completed English Studies 12 or English First Peoples 12 with a C or better, or approved equivalent.

For the most updated information on admissions, visit our website.

READY TO APPLY?

Generally, you can apply up to 11 months in advance of the semester you want to start in. We encourage you to apply early for the best chance of getting into the program you want.

APPLY AT

apply.educationplannerbc.ca/douglas

We'll send you confirmation of your acceptance by email and information about what to do next.

Apply vs Register What's the difference?

You **apply** to be a student at Douglas. Once you're accepted, you will **register** for your courses.

NOT QUITE READY TO APPLY?

We get it. You want to get to know us better before making a commitment.

TALK TO THE FUTURE STUDENTS' OFFICE

The FSO can help you decide if Douglas College is the right fit for you.
