Building a School Garden

Edgewood Elementary is excited to announce that we have received district approval for a school garden! Work on this outdoor learning space will start in the spring. We are in the process of raising funds for the creation and maintenance of the garden and we are excited to announce that we have a new fundraiser program from *Make It Sow*, a Canadian Company. They supply high-quality garden and flower seeds and greenhouse starter kits. They do not use any **GMO seeds** and only use proven species developed for Canadian climates. They back up all their products with a 100% quality guarantee.

The program will run from **February 14 to February 24**, and further information will be supplied before the launch date. We will provide full-colour brochures with details on various seeds, order forms, collection envelopes, and an information letter (a sample can be seen below).

The *Make It Sow* bonus program will also plant trees on our behalf. For every ten packages we sell, they will plant one tree in Canada with an accompanying certificate, so if we sell 200 packages, they will plant 20 trees.

Now is a good time to tell neighbours, friends and relatives who want to grow flowers or gardens this spring about our new fundraiser. Any of these products make a great gift or donation.

Please look for more information and thank you for supporting this important outdoor learning space at Edgewood.
