

72 Hours: Is Your Family Prepared?

If an emergency or natural disaster happens in our community (earthquake, fire, flood, power outage, snow storm, etc.), there is likely to be a lot of chaos and confusion in the following days. All homes should be prepared to be self-sufficient for at least **72 hours** (3 days). A readily-available **emergency kit** is an important part of this preparation.

To help our families be prepared, Latimer Road PAC has partnered with **BCQuake.ca** to arrange a discount on survival kits. The primary purpose of this campaign is to ensure that each home is prepared for a disaster, although the PAC will also receive a portion of each kit sold (\$20 for each home kit and \$10 for each vehicle kit).

- **ReadyGo Survival Kits** (sizes for 1 to 4 people) are packed into backpacks for easy portability. These can be stored at home or in your vehicle in case you happen to be away from home when a disaster strikes.
- **Premium Survival Kits** (sizes for 1 to 6 people) include additional survival items such as a portable stove and fuel.
- **Vehicle Survival Kits** are not 72-hour kits, but will ensure you are prepared for a variety of emergencies while away from home.

Last day to order: **Thursday, February 27**

Pick up: **Wednesday, March 4**

If you are not prepared and have always thought about it, please take advantage of this opportunity. If you already have a kit at home, please use this as a reminder to review its location and contents.

The Government of Canada's Emergency Preparedness site (www.getprepared.gc.ca) also includes checklists if you wish to build your own 72-hour emergency kit. The key is to make sure it is organized and easy to find.
