Exploration Years

2022-2023

The Exploration Years (Grades 8 & 9) provide students an opportunity to explore a variety of learning areas to help prepare them for different pathways, interests and passions as they approach the Graduation Years (Grades 10-12).

Courses are grouped into Learning Areas, as they share many of the same curricular competencies described in the [Ministry of Education Curriculum](#); however, students will be scheduled into courses across learning areas in a semester system.

Humanities 8 and 9 is a yearlong course and provides an opportunity for students to build positive relationships and a strong foundation in the Exploration Years. Check [Learning Guide 2022](#) for descriptions of courses in all Learning Areas. **Students will receive the following courses (checks) and choose from the circles.**
