

Grade 9 School Based Immunizations are Starting Soon!

In grade 9 students are eligible for the following free vaccines:

- Meningococcal Conjugate ACYW (Men-C-ACYW)
- Tetanus, Diphtheria, Pertussis (Tdap)
- Other routine vaccines the students need to be up-to date for age

Public Health will be sending home an immunization consent package for grade 9 students. It is important for students and their parent/guardians or representative to review the consent package and talk about consent for immunization together.

For more information, please contact your local Public Health Unit or visit www.fraserhealth.ca/immunizations.
