	Spanish 11/12 (one workbook for 2 years)	\$24.00
Yearbook	If there is interest	TBA

*See full description of fees and enhancements on the attached appendix.

Appendix: Legislation and School Fees

Instruction is provided free of charge to all students registered in a school's education program sufficient to meet the general requirements of graduation, and we provide free of charge any resource material necessary to participate in that program. The School Act permits the charging of fees for certain items. In Surrey secondary schools, the following structure applies through Board Policy 9802 related to fees and any costs for students or families. We communicate our fees to parents and students of on an annual basis.

Basic School Supplies

Students will need to provide their own basic supplies and equipment for their own personal use at school. This includes supplies such as paper, writing tools, calculators, notebooks, gym strip, sewing kits, and some other items needed for various electives.

Inability to pay fees

The district's hardship policy is an important part of our fees. No student will be denied the ability to participate in any part of the school's educational programs as a result of an inability to pay. Frank Hurt has a process whereby fees may be waived because of financial hardship. The process incorporates the principles of fairness, confidentiality, and sensitivity, while maintaining family respect and dignity. We ask parents or guardians to contact the school counselor in these cases.

Student Activity Fee

This fee is charged to all students. At Frank Hurt, the breakdown of where the funds are directed is as follows:

- Athletics, intramurals & extracurricular activities - \$6
- Student Council and other student clubs - \$6
- Locks, App, student agenda - \$5
- Schoolwide events and special presentations - \$8

Athletics

Participation in athletics and organized sports is an important part of a Frank Hurt's school culture. A significant portion of the costs associated with athletics goes to the provincial and local bodies that organize athletic events. The activity fee portion is used for supplementing tournament and referee fees for each sport and the cost of the annual athletic banquet. In addition, fees for various sports cover the cost of referees and tournament fees. Some of our sports are more costly to run than others. Basketball is a longer season than most sports with more referees and tournaments and incurs a higher cost than other sports. For cheerleading the fees are used for team gear, offsite facility rental and athletic fees. The football program fees include the costs for referees, safety gear and Football BC fees. The ice hockey team costs include referees and ice rental. Every attempt is made to keep costs to a minimum.

Certification

Some programs include a component that offers an external certificate recognizing unique qualifications. Examples are St. John's First Aid, Food Safe, Superhost, and Worldhost. These certificates help prepare students for employment and schools charge a fee to recover the cost of certification. The cost to the student will match the cost to the school for the certificate.

Examinations

Some programs offer external examinations where students can obtain credit for post-secondary institutions as a result of successfully completing the exam. International Baccalaureate and Advanced Placement are examples. Where students take these exams, a fee is charged to recover the cost of the examination and the fee shall be less than or equal to the actual cost of the exam.

Field trips

Students may be charged fees for expenses such as transportation, accommodation, meals, entrance fees and equipment rentals for optional field trips, or other extracurricular outings or events. Students will not be charged fees for any field studies/field trips where attendance is mandatory as part of a course or program.

Graduation Ceremonies

The graduation ceremonies are important traditions that represent the end of a student's school experience. Costs do apply as these extracurricular events are hosted in a variety of venues. No student will be denied the ability to participate in the commencement ceremony due to an inability to pay the cost. Every effort is made to keep costs to a minimum and we do not compile an ongoing surplus as a result of monies collected to host a graduation ceremony. At Frank Hurt the cost includes the commencement and grad supplies and activities, and other commencement ceremony expenses. The cost of the Graduation Dinner and Dance is separate from this fee and is sold at the cost of the venue and dinner. In 2018, the cost of the Dinner and Dance was \$90 per student. The Dry Grad Event is a parent-run event that follows the Dinner and Dance. Tickets are sold by parent sponsors at a cost of the event.

Materials consumed in a course

In courses that consume materials (e.g. art, cooking, woodworking, metalwork, science) schools can only charge for materials or goods that are surplus to what would be necessary for the student to meet the expected outcomes in a course. If a student is going beyond the basic requirements of a course and creating projects for personal use (e.g. creating a table of mahogany rather than plywood), then the student may bring their own materials from home or the cost for the materials for these enhanced projects may be recovered through a fee. Examples at Frank Hurt include optional fees and materials for home economics and project materials in woodworking and tech ed that go beyond the basic supplies.

Musical Instruments

A board may charge a fee for the rental of a musical instrument for the student's personal use or the student may provide their own instrument when he/she is part of a fine arts class or a course with a musical component.

Students in Apprenticeship Programs

Industry Training Authority apprenticeship, fees may be charged for the rental of tools, equipment and materials necessary for participation in the program or the Board may require the student to purchase his or her own tools, equipment and materials required for the program.

Textbook or Calculator Deposits

In accordance with the School Act, the Board may require deposits for educational resource materials, such as textbooks, novels and other resource materials. The Board will refund all of the deposit to the student upon return of the educational resource materials in good condition. Students will be advised of terms of the deposit at the time the deposit is required. Waiver procedures must be in place for all deposits.

Uniforms

Students sometimes need special clothing (uniforms for band or for cafeteria) to participate in an educational program. These clothes are not a requirement to participate in a program but are logical savings for parents where clothes could be soiled or damaged in shops or the cafeteria. If the clothes (e.g. band or choir uniforms) are owned by the school, a fully refundable deposit may be required to ensure the return in good condition.

Workbooks

Workbooks are optional enhancements to educational programs. These workbooks are designed for a student's personal use as they will write in the books during the course of instruction. Where a workbook is regularly used as part of a course and a student does not wish to purchase their own workbook, one will be provided and students will not be permitted to write in the workbook.

Where there is an optional fee for a workbook, that fee will match as close as reasonably possible to the exact cost of the workbook to the school. No school will accumulate an ongoing surplus as a result of workbook fees.

Yearbooks

Yearbooks are common in schools and are optional. The cost for a yearbook for a school shall be directly related to the development and publishing costs of the yearbook and no school shall generate an ongoing surplus as the result of the fees charged to students who wish to buy a yearbook.
