October 7, 2026

Dear Parents and Guardians,

Our first Communicating Student Learning Event for this school year is nearly upon us. Tuesday, October 20th we will be hosting families who wish to attend and discover the great ways in which Fraser Heights Firehawks are learning. To help make it a meaningful experience for you and your child, we want to provide you with some highlights.

To facilitate a more collaborative Communicating Student Learning event there will be an Open House format in which we will be inviting **parents/guardians to attend with their child(ren)**. **There will be two sessions: Session 1 – 2:45 pm – 4:00 pm is our OPEN HOUSE SESSION and Session 2 – 4:30 pm – 6:00 pm is pre-arranged Teacher Appointments.**

We look forward to seeing you in our school, building the necessary relationships with teachers to ensure that we are working together as partners in the education of all our students.

Here is what you can expect to experience on October 20th:

Open House Session 2:45 pm – 4:00 pm

- Parents/guardians are invited to attend the Open House with their child(ren) and visit teachers in their learning spaces.
- Each teacher may have a different Open House format. Students may also be involved in student-led conferences, depending on the teacher's format.
- It is encouraged that your child attends, as they may introduce you to their teacher and discuss what is happening in their learning spaces at Fraser Heights Secondary.
- Maps will be provided to help parents/guardians and students locate teachers during the event.
- Student volunteers will be available to guide parents/guardians to various teachers' classrooms.

Pre-arranged Teacher appointments 4:30 pm – 6:00 pm:

- Some teachers will have reached out to you and invited you for an appointment. Please check your email ahead of time for appointment details.
- If a teacher has not contacted you, you do not need to arrange an appointment for this session.

Please Note: This event is an opportunity to connect with teachers and learn about your child's learning environment. It is not an opportunity to have detailed discussions about specific student marks or progress.

For those parents or guardians who wish to have a more detailed discussion about their child's learning progression, they are welcome to contact their child's teacher at any time.

We look forward to having students and parents at this event as we continue to strengthen school and community relationships that ensure our students can flourish during their time at Fraser Heights Secondary.

Regards,

Fraser Heights Administration
