

STUDENT NAME _____ STUDENT # _____

Greetings to the Class of 2027! You are about to make some significant life decisions on this piece of paper, so shut out any distractions and prepare yourself. Before looking at your selections, first look at the Graduation Program Requirements below. Checking off the courses you have completed will give you an idea of what your Grade 12 year will require. If going through this process creates new questions for you, please contact your counsellor before completing the online course requests. Note: If you take multiple courses of the same requirement (i.e. Physics 11 AND Chemistry 11), check off the box "A Science 11 or 12" AND also an Elective Credit box.

2025 – 26 Course Planning

It is important to review and choose your courses wisely. Courses with insufficient enrollment will not be offered; therefore, it is important that students choose alternate electives with care. If you have any questions or concerns, feel free to speak to or make an appointment with a school counsellor. Since selecting elective courses is such an important process, it should be carried out in consultation with parents/guardians. Depending on your interests and skills, you can look at the reverse side of this page and start thinking about what you would like to take. Think about where you see yourself in a year, two years and beyond.

Choose eight courses as well as two alternatives. Remember that you are required to take a minimum of 4 courses at the Grade 12 level (including English 12). Clearly write the course name from the Course Catalogue.
