

HELP US KEEP THE STUDENTS AND STAFF HEALTHY

As we move into the winter season, we are experiencing a higher than normal rate of illnesses. As always, we encourage students to come to school if they have a simple cold however, if the illness is highly CONTAGIOUS, please do not send your children. As a guide, please keep your child(ren) home if:

- They have Impetigo (skin infection)
- Pink eye
- Chicken Pox
- Have been vomiting/fever and/or have had diarrhea in the past 24 hours

Thank you for helping us to keep everyone healthy.
