

***Information and Professional Development for Staff:***

- Mental Health First Aid Training: School and district staff are trained by our own trainers using materials from the Canadian Mental Health Commission.
- Teen Mental Health Training: School Staff are trained in using the School Mental Health Curriculum and infusing it into their teaching practice.  
<http://teenmentalhealth.org>
- District wide training on Professional Development days. For example, on the April 8, 2019 professional development day we offered a Trauma Informed Practice all day seminar, which was attended by 370 staff.
- Continued partnership with Fraser Health and Child Youth Mental Health to run information sessions in schools and school zones open to families and staff with regards to healthy living, mental health, and mental health awareness.
