

# Surrey Schools Staff Well-Being Survey

## June 2020

1967

### Top 3 Reported Resources and Supports that are Helpful for Staff

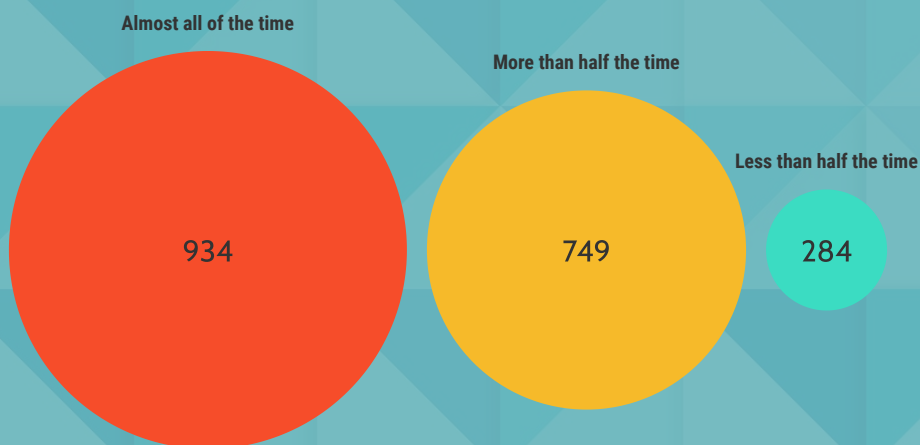

- Regular staff meetings led by school principal, manager or director
- Weekly video messages by our Superintendent
- Health and Safety FAQs and Guidelines

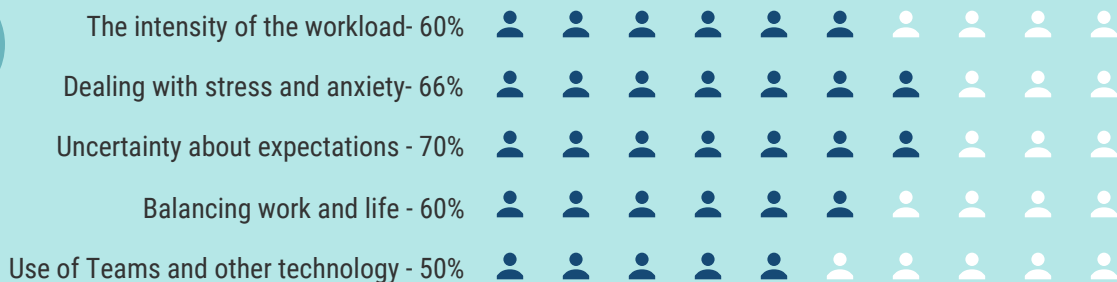

### Emotional Well-Being

Number of Staff who reported feeling Calm and Confident

### What are we grappling with

Employees were able to select more than one challenge for this question

### Staff identified the following needs for September:

- Health and Safety orientations, protocols and resources
- Timely H&S updates
- Regular communication
- Provide resources for blended learning
- Provide access to needed technology
- Provide collaboration and planning time for teachers
- All employee groups acknowledge and appreciate the importance of each other

### How were the surveys collated and what have we done with the results?

A team of staff from Surrey Schools Research and Evaluation Department led the work, collaborating with Building Professional Capacity Department, to collate results and create a full report which was shared with the Superintendent's office and Human Resources.
