WE are Zinc – Battery Collection

On Wednesday, January 31st, Grade 6 students from Division 2 visited all classes to talk about the "WE Are Zinc" battery collection campaign as a part of their Global Citizenship efforts and WE leadership participation. The students will return every Wednesday to collect batteries. There will be no prizes awarded as this is to foster a sense of positive global social change and growth without personal gain. The Zinc Saves Lives Battery Recycling Campaign provides participants with the opportunity to reduce the amount of electronic waste going to landfills and to help save a child's life. Every AA battery contains the same amount of zinc that is needed to save the lives of six children. Zinc deficiency is a global health challenge – 2 billion people worldwide are affected and more than 450,000 children die every year from complications associated with zinc deficiency. Please send any used household batteries to Katzie from now until the end of the school year. Thank you for your support.

KINDERGARTEN REGISTRATION CONTINUES

Please let your neighbours who have young children know that K registration has begun.
