

KOPINO BOOK DONATION

From Pawprint

WHAT IS THE ORGANIZATION?

Kopino Children are Korean-Filipino children in the Philippines. Many were born to unwed mothers and were disadvantaged when their South Korean fathers (who visited the Philippines for vacation) returned back to Korea. There are approximately 10,000 Kopino children throughout the Philippines according to the Kopino Children's Association. This organization provides social services to the Kopino children, especially education in English, Korean and other subjects.

WHY SHOULD WE DONATE?

For this specific donation, donating internationally will meet unmet needs. While everyone can access books for free in Canada, in the Philippines it is hard to even access English books. The English books we donate will be read by the children in the Kopino Children's Association, an organization that is recognized world-wide.
