

LIBERAL ARTS CO-OP

Liberal Arts Co-op is an intensive academic program that provides a challenging and exciting learning environment for students who have a keen interest and strong ability in English and Social Studies, specifically a curiosity about human life, human behaviour, and literature. Students will remain with one instructor all day. Along with three academic courses, students will be placed at two different work experiences in their area of interest that are approximately three weeks long.

Students should be mature, independent, and hard-working. There is a mandatory application that requires recommendations from both their English and Social Studies teachers.

EXPECTATIONS:

Regular attendance is critical due to the condensed nature of the course work. Students will be expected to manage both curricular and workplace requirements with maturity, professionalism, and responsibility acting as excellent ambassadors of Earl Marriott.

SEMESTER 1*:

A MATH 11
