

LST Tutorial

COURSE DESCRIPTION

This class is designed for you to get help with any problems you may have in your other subjects. You are to use this block to improve your study and organizational skills, complete any unfinished assignments, improve your overall academic skills and ask for help with any difficult assignments or questions you have encountered.

SUPPLIES

The following is a list of supplies you will need to bring to **every** class:

- subject binder(s) with all classroom notes and assignments
- textbooks from the subjects you are taking
- all handouts received throughout the semester
- pens (red, blue, black), pencils, erasers, ruler, and calculator
- agenda or something else to write down your homework
- a book to read during silent reading

CLASS EXPECTATIONS

Work Quietly:

- Everyone in this class has work that they need support with. If you cannot control your behavior/emotions, you will be moved to a place where you can. Respect those that are working hard.

Computers:

- You must ask to use the computer and inform the teacher what it is you need it for. There is no food or drinks allowed around the computers for obvious reasons.

Washroom/Locker :

- You may leave to go to the bathroom or your locker once a week. Plan your washroom breaks accordingly and make sure to bring the supplies you need or you will be completing work we assign to you.

Food & Drinks:

- You may have WATER to drink in class, but nothing else. You may also bring food to class, but it has to be something that you can eat while working and won't make any distracting noises (ex: bag of chips).

Electronics:

- You may bring your electronics (iPods, cell phones, etc.) to class but if they become a distraction they will be taken away. If you want to listen to music, you must have a playlist so you are not constantly choosing new songs. Keep the volume low so only you can hear it.

CLASS ROUTINE

1. 1-2 min. - As soon as you enter the class you grab your duotang and write down what you will be working on.
2. 15 min – Silent Reading or mini lesson (grammar, math, reading, study tips/strategies, etc.)
3. 60 min – Support time
4. 5 min – Duotangs signed by teacher and put away, relax

EVALUATION:

There will be a daily evaluation on your participation, work ethic, attitude and on task behavior.

- 5 = on-time, prepared (binders, textbooks, pen/pencil, paper, agenda), worked entire class, helped others, respectful
- 4 = on-time, prepared (binders, textbooks, pen/pencil, paper, agenda), worked almost entire class, respectful
- 3 = on-time, mostly prepared, worked in class but had to be told to work or contribute occasionally, respectful
- 2 = late, unprepared, had to be repeatedly told to work, disruptive, disrespectful
- 1 = late, unprepared, did not do any work, disruptive to the class, disrespectful

How do I do well in LST?

Success in Learning Support will mean success in your other classes. Here are a few key to be successful:

- Be on time
- Come to class with all the necessary materials you will need to accomplish your tasks for the day
- Organization
- Time management – use your time wisely, don't do the work you know how to do on your own, do the stuff you need help with
- Ask for help
- Be honest with yourself about what you can and can't do, NO ONE is perfect
- If you complete all your work and don't have anything to work on, review your notes or help someone else
- Be positive
- TRY YOUR BEST!
