

Good morning Latimer Families, this morning Jordan Tinney shared the new mask wearing updates. You can watch the video here: <https://vimeo.com/509853549>.

Here are the highlights:

A change in the guidelines state that masks can now be safely worn by school aged children and they do have a role to play in helping prevent the spread of Covid-19.

While it does continue to be a family choice for elementary aged students, we encourage all students to bring a mask. If you do not have one your child can come and get a mask from the office.

4 things you can do to help stop the spread:

- ★ wash your hands
- ★ keep your distance
- ★ watch for symptoms and stay home if you're sick
- ★ if you're on the move wear a mask
