Entering the School

- When entering school please wear a mask and use hand sanitizer

Traffic Flow

- Avoid hallways and common areas
- Follow the directional arrows throughout the school (Keep Right)
- Most stairwells are one way

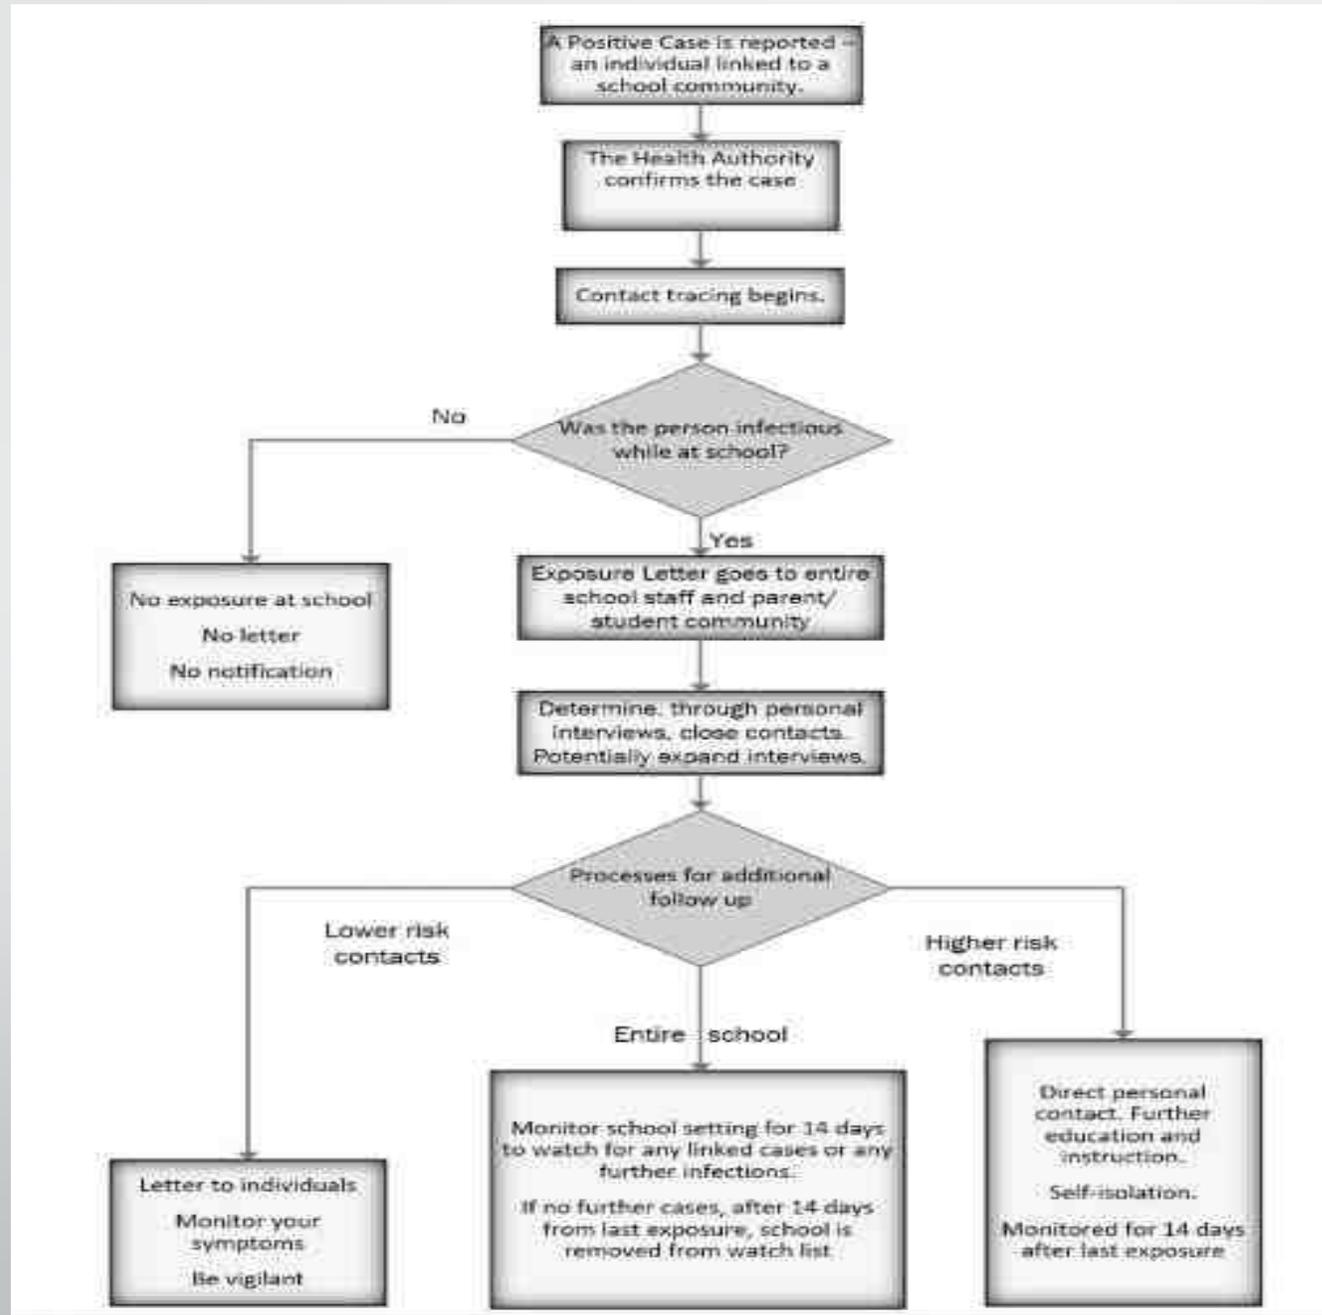

Physical Distancing Outside of your Cohort

- Follow safe physical distancing guidelines by maintaining a distance 2 metres
- Follow the directional arrows when moving through the school
- When physical distancing is not possible wear a mask (hallways and common areas)
- In your cohort although you do not need to maintain 2 metres distance avoid physical contact

Washrooms

- Each area of the school has washrooms
- All washrooms are handwashing stations
- Only two people max per washroom at a time
- Make sure you wash your hands when you leave the washroom
- Follow COVID-19 handwashing guidelines as posted in all washrooms

*Check BCCDC's [Symptoms of COVID-19](#) regularly to ensure the list is up to date.

If you answered "YES" to one of the questions included under 'Key Symptoms of Illness' (excluding fever), you should stay home for 24 hours from when the symptom started. If the symptom improves, you may return to school when you feel well enough. If the symptom persists or worsens, seek a health assessment.

If you answered "YES" to two or more of the questions included under 'Symptoms of Illness' or you have a fever, seek a health assessment. A health assessment includes calling 8-1-1, or a primary care provider like a physician or nurse practitioner. If a health assessment is required, you should not return to school until COVID-19 has been excluded and your symptoms have improved.

When a COVID-19 test is recommended by the health assessment:

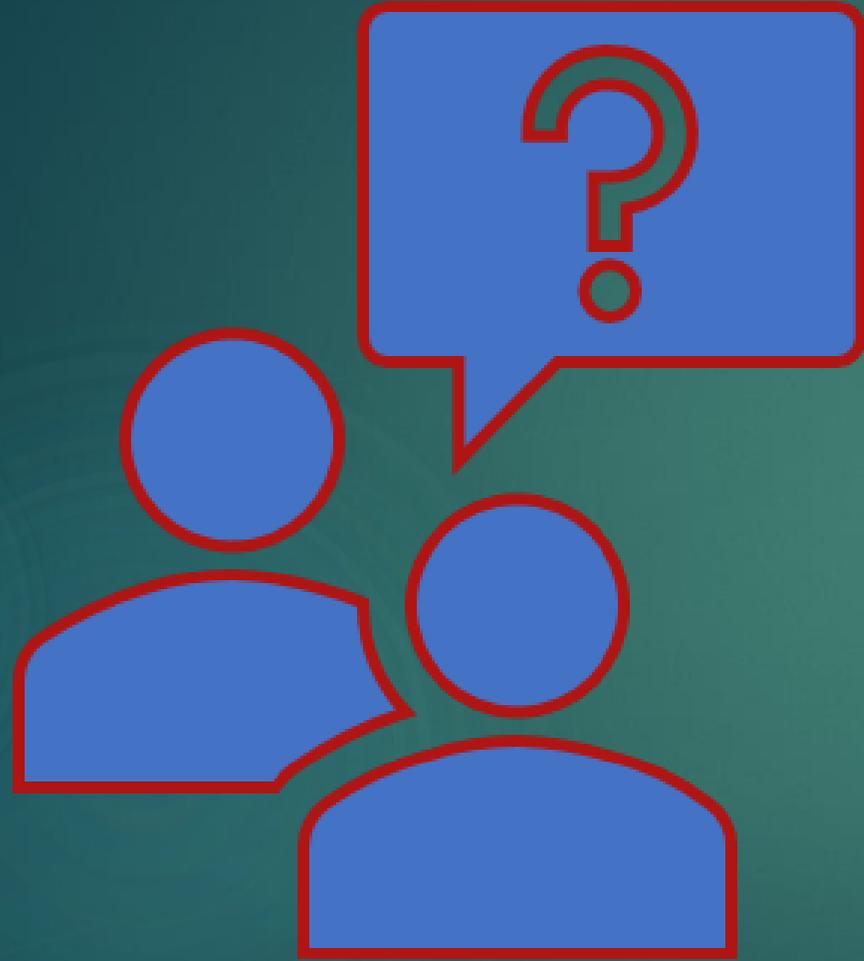

- If the COVID-19 test is **positive**, you should stay home until you are told by public health to end self-isolation. In most cases this is 10 days after the onset of symptoms. Public health will contact everyone with a positive test.
- If the COVID-19 test is **negative**, you can return to school once symptoms have improved and you feel well enough. Symptoms of common respiratory illnesses can persist for a week or more. Re-testing is not needed unless you develop a new illness.
- If a COVID-19 test is recommended but is not done because you choose not to have the test, or you do not seek a health assessment when recommended, and your symptoms are not related to a previously diagnosed health condition, you should stay home from school until 10 days after the onset of symptoms, and then you may return if you are feeling well enough.

If a COVID-19 test is not recommended by the health assessment, you can return to school when symptoms improve and you feel well enough. Testing may not be recommended if the assessment determines that the symptoms are due to another cause (i.e. not COVID-19).

If you answered "YES" to questions 2 or 3, use the [COVID-19 Self-Assessment Tool](#) to determine if you should seek testing for COVID-19.
