Re: Proposal for Extracurricular Funding for Leadership Club and Choir Club technology

November 23rd, 2020

Dear Michael and the William F. Davidson Elementary PAC,

Thank you so much for your continued support of our students, their passions, learning, and extracurricular endeavours. The school and community appreciate the support of our learners immensely. Our students' lives are enriched through your hard work and contributions.

Last year, your support of student learning through sponsoring transportation for Field Learning Opportunities, helping our Grade 7s celebrate moving on to Secondary School, sporting equipment, and student Arts presentations changed the landscape of learning for the children attending William F. Davidson and provided opportunities outside of the classroom that would normally not be available for many of these learners.

This year, as our educational landscape is quite different due to COVID-19, we are hoping you will help us support extracurricular clubs in our school through your Gaming Grant.

Our Leadership Club and our Choir Club students use technology extensively in their activities and projects. Our Leadership Club uses iPads to record student extracurricular activities (sports, spirit days, special events) and uses this footage to commemorate the year for parents and other students. This is even more important in a year when families are not able to attend the events in-person. The Leadership Club is providing an avenue for families to rejoin their children's extracurricular experiences at school.

Our Choir Club has been rehearsing and recording their songs to share with the school community, as in-person performances are not permitted at this time. To facilitate this, they need iPads to record the footage and computers to edit clips, piece different student groups/rehearsals together, and create a synchronous piece that can be presented to parents and other students in a time where the full group is not able to physically gather.

In support of these groups, we are asking for 5 iPads and 12 Dell 3190 2-in-1 computers for student extracurricular use.

Thank you for your consideration,

Zahara Rawji
Principal

Amberly Wittenberg
Vice Principal
