Math Pathways

***Pathways should be chosen in consideration of your post secondary program requirements**

LEAP

Learning through Experience and Aboriginal Perspectives

LEAP is a Grade 10 interdisciplinary program. The cohort includes Science 10, Physical & Health Education 10, First People's English 10/Spoken Word 10, Social Studies 10, and Career Life Education. All students will be grouped together for these courses, for the duration of the semester. The goal of the program is to learn Big Ideas and develop Core Competencies through a holistic, hands-on approach, with a strong focus of Indigenous perspectives and building a sense of community. The program will include themed common units, incorporating *Curricular Content and Competencies* from each of the different courses.

ENGAGE

Who?

- ▶ Interest in Science and Math
- ▶ Registering for
 - ▶ Pre Calculus 12
 - ▶ Physics 12
- ▶ Learn best by putting your knowledge in action
 - ▶ Labs, hands-on activities, ...
- ▶ Curious about how you might get involved with technology as a career
 - ▶ Chance to try electronics, robotics, and computing science

Do you have to be a "Techie"?

- ▶ Before I joined Engage I saw myself as someone that was very "high tech"
 - ▶ 15.8% strongly agree
 - ▶ 21.1% agree
- ▶ Now that I am part of Engage my confidence with building and coding has grown
 - ▶ 84.2% strongly agree or agree

Before I joined Engage I saw myself as someone that was very "high tech"

Now that I am part of Engage my confidence with building and coding has grown

Do I have to have taken Engage 11?

▶ Nope

- ▶ Only Pre-Calculus 11 and Physics 11 are pre-requisites
- ▶ Computing/Robotics skills have no pre-requisite (assume you've never done them before)

Why?

- ▶ Interdisciplinary learning
 - ▶ Learn Math and Physics **THROUGH** hands on lab work in Robotics and Computing Science
 - ▶ Same rigor (not harder), different method
 - ▶ Not really possible without a cohort (classes blended)
- ▶ Opportunity to explore applied skills and post-secondary connections
 - ▶ Field trips to local tech companies/events and SFU/UBC

An object is launched from a platform.

Its height (in meters), x seconds after the launch, is modeled by:

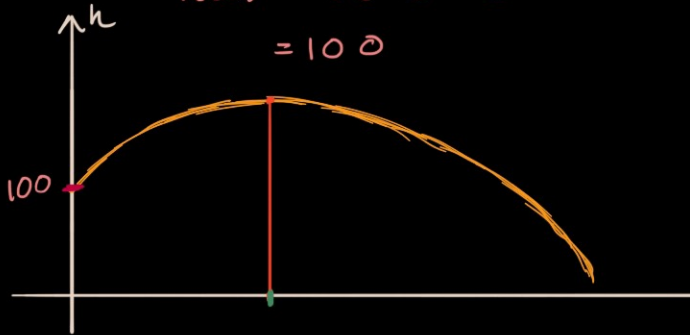

$$h(x) = -5(x - 4)^2 + 180$$

how high is platform?

$$h(0) = -5(0 - 4)^2 + 180$$
$$= 100$$

how long after launch

+

A projectile is launched horizontally into the air at 6.00 m/s from an initial height of 11.0 m above the ground. Calculate the projectile's 2D velocity in the final moment of free fall just before striking the ground. $v_{f,2D} = ?$

$$v_{fy}^2 = 2 \cdot a_y \cdot \Delta y$$
$$v_{fy}^2 = 2(-9.81)(-11)$$
$$v_{fy} = -14.1$$

Engage

- ▶ Full semester in TED Lab 274
 - ▶ No distinct blocks
- ▶ Pre Calculus 12 / AP Calculus
- ▶ Physics 12 / AP Physics
- ▶ AP Computing Science
- ▶ Robotics 11
- ▶ CLC (if needed)
 - ▶ Opportunity to advance/extend projects from class

Grade 12

Engage	Semester II
Pre Calculus 12 / AP Calculus	
Physics	Choice
Applied Skills	Choice
	Choice

Strongly Agree Agree Neutral Disagree Strongly disagree

I feel very confident at completing traditional math exercises (whiteboard problems, worksheets, quizzes)

I feel very confident at completing traditional physics exercises (whiteboard problems, worksheets, quizzes)

I feel very confident at applying mathematics to my projects

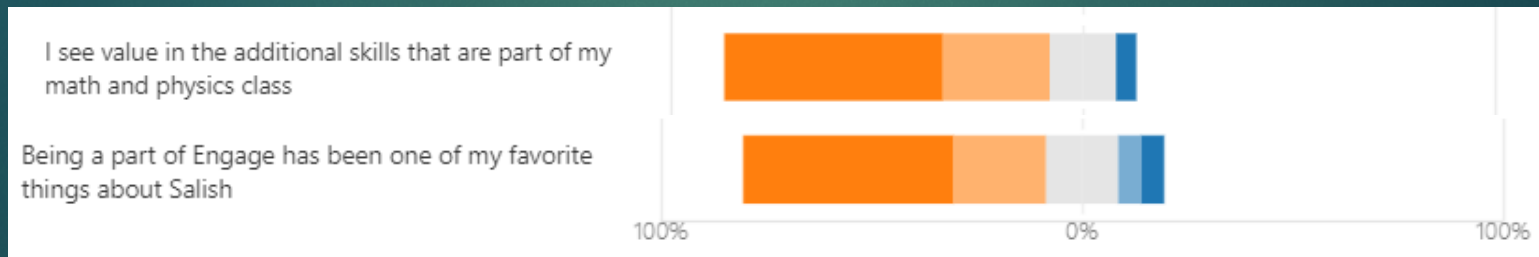

I feel very confident at applying physics to my projects

I feel that I learn math and physics better through projects

Is it worth it?

- ▶ I see value in the additional skills that are part of my math and physics class
 - ▶ 78.9% Strongly Agree or Agree
- ▶ Being a part of Engage has been one of my favorite things about Salish
 - ▶ 72.2% Strongly Agree or Agree

What would you tell a student who is thinking about joining Engage next year?

It is a much more effective way to learn concepts and you remember everything much more, since instead of doing a unit test and kind of remembering some concepts, instead you build projects with what you learn allowing you to understand everything way better as well as remember all the concepts.

Honestly, school was a joke to me previous to this year and I didn't care what so ever, i would get A's without trying. Engage has really pushed me and motivated me to try my best and beyond.

Time management paired with efficiency is crucial. If you strive to be successful in ENGAGE you should expect to spend time after school and at lunch working on projects (on occasion).

engage does a great job at serving as a project based program with different subjects and showing how the things we learn are relevant to each other

It will seem difficult at times and at first but your accomplishments will be worth the hard work.

Be prepared to feel frustrated at times when things aren't working the way you hope it will, because the feeling of making it work after is worth it.

Information Session

- ▶ Questions?
 - ▶ Do you know an Engage 11 student?
- ▶ Want to talk more?
- ▶ **Thursday Jan. 30th after school in 274 – TODAY!**
- ▶ **Friday Jan. 31st at lunch in 274**
- ▶ You can find us in
 - ▶ the upstairs purple pod
 - ▶ TED Lab 274

The background of the slide features a close-up, artistic shot of film reels and a clapperboard. The reels are metallic and show the intricate details of the film strips. The clapperboard is partially visible in the bottom right corner, with the words 'DIRECTOR', 'CAMERA', 'SCENE', and 'TAKE' printed on it. A white rectangular box with a thin black border is centered on the slide, containing the title and subtitle. A blue rectangular tab is attached to the top edge of this box.

Who We Are

Film Making for the 21st Century

Overview

- This is a film making course. You will spend the semester learning the craft of writing and producing new media to express your ideas.
- This program is for students who are interested in any of the following areas of study:
 - Visual arts
 - Media technology
 - Digital photography
 - Animation
 - Film & television

Courses You Will Get Credit For:

English - New Media

CLC

3 of the following:

Visual Arts - Graphics

Media Arts – Video

Media Arts – Animation

Photography

Program Highlights

- Field trips and studies specific to digital media outlets such as CBC, BroadBandTV
- Group projects designed to replicate a workplace environment
- Opportunity to create and develop personal projects
- Full day program to work exclusively on film production

Benefits

- Opportunity to develop skills in a variety of digital software and create projects that use these skills
- Create a portfolio project to use for post-secondary applications
- Work on a film that expresses ideas you are passionate about
- Career Life Connections in a digital field such as but not limited to:
 - Graphic arts
 - Animation
 - Film & television
 - Photography

Capstone?

- YES!!!!!!
- You will be able to start work on your Capstone project using the equipment and expertise in the classroom.

Work Experience

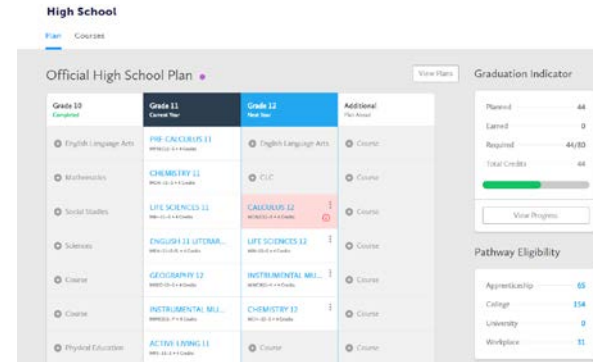

Choosing your courses

- Check post-secondary institute (PSI) requirements – **GENERAL** & **SPECIFIC**
 - e.g. of **GENERAL** requirements (SFU) – minimum 5 GR 12 courses
 - e.g. of **SPECIFIC** requirements (SFU / Applied Sciences) – EN12 + CALC 12 + CHEM 12 + PHY 12 + PRE-CALC 12
- PSIs have specific # of courses they review for admission
 - In BC 3 - 6 GR 12 courses (incl ENG12)
 - Other provinces' PSIs usually require 5-6 GR12 courses

Resources

• **Myblueprint.ca**

- Activation key: salish
- Provide your PEN (Provincial Education #) and your courses & credits will load
- Plan courses, career info, PSI programs

• **Educationplannerbc.ca**

- Search by program, study area
- Resources, application portal
