Distribution of Rapid Antigen Tests for Sullivan Heights Secondary Students

Dear Parents and Guardians,

This week, the Ministry of Education continued shipping COVID-19 rapid antigen tests to school districts across the province for distribution to students. We have now received test kits for our school. We will be distributing these kits to our students beginning Monday, March 7, 2022.

Every student at our school will receive one package that includes 5 test kits for your family's use. For details on when to use this test, please visit the [BC Centre for Disease Control's website](#).

You can access instructions on how to use these kits [here](#). Please feel free to print these out or bookmark this link. If you have any questions about these test kits, please reach out to public health.

Thank you for your continued support.

Sincerely,

David Baldasso
Principal
