

## **Student Learning**

### **Literacy Goals**

- improve student reading skills
- continue with the home reading incentive program
- develop a school-wide focus on writing skills

### **School Climate and Culture**

- enhance a positive school climate and culture
- maintain clear and transparent communication
- support inclusion and cooperation
- establish shared responsibility among staff with collaboration and consultative decision making
- share clear expectations for student behaviour
- continue to focus on self regulation and social responsibility by using monthly virtues and zones of regulation

### **Parents/Guardians - Partners in Education**

We believe parents/guardians play a significant role in supporting their child's learning. We are committed to working together in order to create a home- school relationship that supports all areas of the child's development. Regular communication is a critical factor, one in which involves the child, parent/guardian and teacher.
