

School Vaccination Information for Parents

Getting vaccinated on schedule is the best way to protect yourself from many dangerous diseases. Public health regularly checks immunization records for students in Grades 6-12 to help make sure they are up to date on vaccines.

We offer all routine vaccines needed for students in Grades 6-12 when students are in school.

Families can check their child's immunization records online to see if they need any vaccines by logging into immunizationconsent.gov.bc.ca/s/ then looking at "Immunization forecast".

Give consent for the child's vaccines online

This year, students, parents, or caregivers of students in Grades 6-12 have the option to provide consent for vaccines online. **You can fill out consent now or any time before the school clinic.**

To give online consent for immunizations, scan this QR code or go to immunizationconsent.gov.bc.ca/s/.

If vaccines are needed, please see [Vaccines | HealthLink BC](#) for more information on the specific vaccine your child needs.

Parents, students or caregivers who complete the online consent, will receive a letter closer to the time of school immunizations so you are aware of when the school clinic is occurring.

If consent is not completed online, students will receive a letter and paper consent form from the school close to the time of immunization. The letter will let you know when the consent needs to be returned by.

What if the child had vaccines but they are not on their immunization record?

If the child's record is missing vaccines they already had, please do the following:

1. Find the paper record at home, if one was given to you at the time of vaccination.
2. If you do not have records at home, contact the health care provider who gave the vaccines and ask for a copy of the immunization record.
3. Report the immunizations either of these ways:
 - Submit it online by either scanning this QR code or going to FraserHealth.ca/immunizationform.
