

Winter Shutdown PA Announcement

Turn it Off, Before you Take Off

Final Week leading up to December 19th

Winter break is coming soon and before everyone leaves for the holidays, we are asking all staff and students to do their part by giving the gift of energy savings this year. Did you know that when electronics remain plugged in, they draw roughly 5% of the energy used while in operation? With all the equipment we have in our schools, that can really add up.

This Friday, before everyone takes off for the holidays, we'll be asking you **turn off and unplug electronics and close blinds or shutters** in your classroom. To help you out with what can be turned off and unplugged, we will be handing out a shutdown checklist.

Thanks everyone!

On December 19th (last day of class)

Before you take off today, please help us save energy by **turning off and unplugging equipment** that won't be used over the holidays. Don't forget to turn off lights and close blinds in your classroom too! Use the Winter Shutdown checklist to help guide you. Thanks for helping us to give the gift of energy savings this holiday season.

Thanks for your help and Happy Holidays!
