SHAD
CANADA

STEAM + Entrepreneurship

Summer Program
for grade 10 and 11 students

The Shad Program

Shad is a transformational month-long STEAM (Science, Technology, Engineering, Arts, and Mathematics) and entrepreneurship program in July for Grade 10 and 11 students.

We offer Shad On-Campus, where students live on-site at one of our 22 Canadian university partners, as well as ShadAnywhere, a digital campus where students can participate online from wherever they're spending their summer.

Why Shad?

Both programs afford students an amazing opportunity to prepare for post-secondary, participate in university-level lectures and labs, hear from professional keynote speakers and form lasting connections with peers from across Canada.

To learn more, ask one of our incredible team members to visit your school. The application process is competitive and opens September 15.
