## **Special Notice Regarding Preventative Exterior Ant Treatment**

March 13, 2019

Dear Parents / Guardians,

I am writing to inform you that Woodland Park Elementary is one of 15 schools in Surrey that will be undergoing a preventative spray treatment for ants on the exterior perimeter of our building from March 16<sup>th</sup> to 18<sup>th</sup> after students and staff have been dismissed for Spring Break. The goal is to reduce the ant infestations that we encounter each spring at our school.

The district has informed me that all protocols, policies, and precautions for the Surrey School District, the Ministry of Environment and WorkSafeBC will be strictly followed to ensure this is performed safely.

The Ministry of Environment and WorkSafeBC requires that signs be posted on the building 72 hours before the application of the spray. In addition, the district does not want anyone, including staff members, to be entering the school building during the process.

Thank you for your understanding, and if you have any further questions or concerns, please feel free to give me a call.

Sincerely,

Mr. Paul Taylor,

Principal
