

January 20, 2017

A big **Thank You** to parents who are able to take the time to park near the school and escort their children, or those who walk all the way to school.

Parking Update

Now that the snowy weather seems to be leaving us we would like to get the traffic and parking back to normal.

In the last week, tempers have flared in our pick up and drop off area with parents frustration with cars parked or stopped in drive through areas. Please do not park in the drive through area. Stop, drop your children and leave. If you wish to walk with them all the way to the classroom door, please park on the street near the school.

Do not use our staff parking lot for student pick up and drop off.

In the morning, more than fifty staff members need to get to work at our school. Some have start times that mean they arrive very close to the same time as students. During the cold weather, the number of parents using the staff parking lot has increased to the point it is impossible for our employees to get in and out. This week, parents helping drive for a field trip were unable to access our parking lot due to the number of parents clogging it up, waiting to pick up their children. Please do your part to help us fix this. Park and wait on the streets near the school.
